## ALLIED AVIATORS MASTERS OF AIR

By Telegraph to The Freeman.

Paris, Aug. 22.—Proof continues to pile up daily showing that mastery of the air on the western battle front has definitely passed to the Allies. Complaints from German troops against the Allied superiority in the air are growing more frequent, dispatches from Switzerland said today. The German troops declare that Allied machines are over almost all of the front, firing upon them with machine guns and bombing them at concentration points.

The Germans admit the scarcity of their own machines. They declare that the Allied machines, by always working in conjunction with the Allied infantry, have played an important part in the recent Allied victories.

## SOCIALIST PARTY LEADERS TO TRIAL

By Telegraph to The Freeman.

Chicago, Aug. 22.—Victor L. Berger, first Socialist candidate for congressman and candidate for United States senator in Wisconsin, together with four other Socialist party leaders, who were indicted under the espionage act, are to be placed on trial at once.

The district attorney has announced that within a week he would ask the United States district court to fix an immediate date for the hearing. The department of justice regards the case of the Socialist leaders as of great importance in connection with the I. W. W. trial.

Those who will stand trial are Arthur Germer, national secretary of the Socialists; J. Louis Engdahl, editor of the American Socialist and the Eye Opener; Irvin St. John Tucker, of "peace party" fame, and William F. Truse, head of the American Liberty League.

### OIL STOVE EXPLODES.

**Silver's Grocery Store Stock Partly Destroyed by Fire Wednesday.**

Two rooms in the rear of the grocery store of Charles Silver at 422 Washington avenue, were gutted by fire about 5:45 o'clock Wednesday afternoon, and some of the stock in the store was damaged by smoke and water. The cause was the explosion of an oil stove on which Mr. Silver was cooking his supper. He was waiting on a customer when he heard an explosion, which was followed by a sheet of flame from the room which is occupied as living apartments by Mr. Silver.

Mr. Silver ran out of the store shouting "Fire," and the alarm was turned in from Box 95 by a boy. The firemen used three streams of water and soon had the blaze under control.

The building is owned by Mary Halstead and is insured for $1,200. Mr. Silver said that he had from $800 to $1,000 worth of stock. Much of this was destroyed. He had no insurance. Most of his clothes were burned but he did save a roll of $400 he had in a coat pocket and a watch. When the fire was out, the watch was black and hot but still ticking.

### 15 CANOES UPSET.

**One Dead and 15 Missing in Accident to Pleasure Seekers.**

By Telegraph to The Freeman.

New York, Aug. 22.—One woman is dead and fifteen other persons are missing today as a result of a motor boat and canoe accident in the Rockaway Shoals, off Rockaway Point.

Fifteen canoes, which were being towed by the motor boat from Sheepshead Bay to attend a banquet at Rockaway Point, capsized when the motor boat became disabled and broke the tow line while drifting.

The dead woman is Mrs. Thomas McCauley, of Brooklyn.

Government patrol and police boats are searching for the missing fifteen persons and the motor boat which disappeared. Forty members of the party were rescued by life savers.

### DISABLED SOLDIERS.

**833 Sick and Wounded From France Last Week.**

By Telegraph to The Freeman.

Washington, Aug. 22.—The number of sick and wounded soldiers landed in this country from the expeditionary forces during the week ending August 16, shows a large increase over preceding weeks and reflects to a small degree the west front offensive. There were 833 landed for this week as against 63 for the previous week. The men have all been sent to base and other hospitals where reconstruction facilities have been provided.

### Schebileki Jailed.

John Schebileki of Jarrold street, pleaded guilty this morning to the charge preferred against him by Officer Martin and was sentenced to four months in the county jail by Judge Schirick. Officer Martin in his report of the arrest stated that John was "a general nuisance." He was intoxicated and some one had badly beaten him up.

## INTEREST KEEN AT ELLENVILLE FAIR

**Record Breaking Admissions and Concessions—Well Known People View Exhibits—Moore Won Farm Boys' Contest.**

Ellenville, Aug. 22.—Continuous perfect weather is keeping up the greatly increased attendance and exhibits over two years ago at the county fair. The receipts on Wednesday for admission and season tickets were considerably over $1,500. Two years ago, on the corresponding day, they were $900.

There has not been in the history of the association as much money paid for concessions as this year.

The midway is a surprise. Covering more than a stretch of a thousand feet of double line Tuesday, applications came in Tuesday night and Wednesday morning, adding a stretch half as much greater.

It is claimed that the grounds never had such a crush of vehicles as today, numbering over 500 motor cars.

**Parties on Cars and Farm Wagons.**

With all the rush of the heavy days, the best of order is being maintained, and the regulation for parking automobiles and teams, guiding them across the track and over the grounds quietly and easily, were enforced without friction by a squad of state troopers, Clarence Brophy, Howard Lord, Samuel Freeman and A. Dykeman.

More than three hundred cars rolled into the grounds Wednesday, and more parked at the lower end.

Motoring parties came in a procession with here and there a large farm rigging carrying loads of young and old huddled together on straw and blankets.

The grand stand and auxiliary stand were nearly filled during the races

The judging of horses and cattle is now concluded.

Judging of swine and poultry is bringing out better types in the pens than the fair management expected.

Competition in women's fancy work is keen and there is so much of it that the booth in the rear of the main hall is generally thronged.

**Well-Known People at Fair.**

President of the Agricultural Association of Sullivan county, Robinson, was present Tuesday and returned Wednesday.

Albert Morrison, of the Oneonta Fair Association, met many friends on the grounds.

Wednesday there were several well-known visitors at this fair. J. O. Winston, Mrs. Winston and their son, William A. Winston, home from the Virginia Military Institute, with friends, drove into the grounds.

Mr. and Mrs. Jules Breauchaud and daughter, Elsie, motored on to the grounds Wednesday.

Mr. and Mrs. Philip Schantz, the county treasurer, visited the fair in their car Wednesday.

Mr. Leggett, the New York grocer, brought a motoring party to the fair.

District Attorney Fred Traver and George Dumond came with a motoring party; and Judge Cunningham, accompanied by William Cleary, of New York, drove into the grounds yesterday.

Senator Walton was among the visitors Tuesday.

Dr. and Mrs. Seaman and Mrs. Sarre, from Yama Farms, motored over to the fair.

Others, who were at the fair Wednesday, were:

Deputy County Clerk Walter Geroldsek, City Judge Schirick, Dr. William J. O'Leary, Captain C. Meech Woolsey of Milton, W. H. Brett, of Waukee, Mo., manager of the Clysmic Spring Co.; Silas Auchmoody of Rosendale.

**Farm Boys Judging Cattle and Crops**

Another new feature at the fair this year was the contest between farm boys, brought up and still working on a farm, in judging cattle, poultry, fruit and potatoes. The winner, Abram Moore, from the farm of 100 acres, owned by his father, Leslie Moore, in Ellenville, was adjudged over one competitor, largely on the winner's placements of fruit, vegetables and potatoes.

His only competitor was Calvin Rowley, from an eleven acre fruit farm in Marlborough, which he works for his mother.

Both boys were given 100 per cent in placing Guernseys, Rowley got 75 per cent and Moore 50 per cent in placing Holsteins. Young Moore will go to the state fair, his expenses all paid; or if unable to go Rowley will go in his place. Both boys are 14 years old.

The state fair has a boys' camp, consisting of one boy reared on a farm from each county, between 14 and 18 years of age inclusive. The judges of the Ellenville contest were Farm Bureau Manager C. F. Cochrane, Chester Young and H. L. Smith, teacher of agriculture in the Ellenville schools. The boys first wrote brief essays explaining the work they are doing on the farms. Then they were taken on the grounds and off-hand looked over the cattle, fruits, seeds, vegetables and potatoes, placing their orders of merit on sheets of paper. The Holsteins were difficult to judge. But when these boys' placements were compared with the placements of the judges it was found they agree in every point as to the Holstein herds. It was explained to them that the best dairy cows are wedge shape in form, alone horizontal lines, has an udder well

## DUFFEY TELLS WHY BRIDGE MUST WAIT

**First Tenable Reason for Delay Ever Heard—Frank Explanation Instead of Insincere Promises—Another Item in Our Bill Against the Kaiser.**

After for ten years receiving a succession of promises of immediate action by the state in the Rondout creek bridge matter, which promises have not been fulfilled, it was a refreshing change for the Rotary Club to hear Commissioner Duffey explain why the bridge cannot be built at this time and give satisfying reasons to prove that it will be built after the war. The State Highway Commissioner was the guest of the Rotary Club at their dinner at the Y. M. C. A. Wednesday evening, having been invited to talk about highways in general and the bridge in particular. In introducing the speaker, President Arthur C. Connelly, of the Rotary Club, spoke of having seen 40 automobiles waiting their turn to cross on "the gold mine" ferry which can only carry five at a time.

Commissioner Duffey said that in view of the feeling existing here, which made it difficult to converse with anyone without the bridge matter being introduced, he felt that in coming to Kingston to make an address he was either a brave man or of the class who rush in where angels fear to tread. He was aware of the conditions here, one that was intolerable and must be remedied. A gap in the most important road in the state and the most attractive road in the eastern United States exists here.

**Win the War First.**

Reviewing highway work generally, Commissioner Duffey said there were, two years ago, in the employ of the state highway department 1,200 engineers and 3,000 employes, constituting a vast organization which is now marking time, stepping aside to respond to the greater demands made by the war, following a policy approved by the legislature that there be no new construction work until changed conditions make it advisable. This plan was approved and adopted by the federal government, the rule being, "No new construction not necessary to the winning of the war."

The commissioner said that when this rule was made by the federal government he stated that of the 80,000 miles of roads in New York state there were no such roads. A road opened and in use for 250 years as a public highway is not a road that must be immediately constructed now for the winning of the war. It has waited 250 years and it can wait until the war is won.

**Keeping What We Have.**

In the meantime the state is trying to maintain the roads it has and to complete the torn up portions under contract. At the opening of last season there were 1,000 miles under contract. At the close of the season 400 miles had been completed. Of the remainder half was torn up and these the state is trying to finish. A section of the Saugerties road has been completed and work is now in progress on the Hurley road, which is in this class.

**Saved by Blessed Oil.**

New York began building improved highways 19 years ago, later than New Jersey and Massachusetts, but it soon outstripped its neighbors. Some of these roads are good, some not so good and some very bad. Some were not properly designed, some were properly designed but not properly built. Up to the time of the automobile the macadam road was the only type of improved road known and but for the automobile, which takes away part of the road, it would be all right today. But the automobile came and road builders were in despair. Oil, blessed oil, saved the day. Then came the trucks, heavier each season, and today the problem is how to build roads that will carry the load. The roads are being again put to a new use not anticipated and not provided for.

**Must Limit Traffic.**

The United States authorities have found that the biggest truck profitable to build and operate for war use is the five-ton truck. "And I say," said the speaker, "that if five tons is big enough for war it is big enough for beer." Truck owners have shown a tendency to order larger trucks. When the five-ton truck wears out the owner orders an eight-ton truck and when that wears out he orders a 12-ton truck. Highway engineers can build a road to carry the Empire State Express—if you give them the money. This is an economic, not an engineering problem. The question is, must we not only build future roads but rebuild all our roads to carry these heavier loads—must we expend $165,000,000 to replace roads that have already cost us $35,000,000 to build? If you say so we will do it, but I do not believe the people are so prodigal. The problem is to save what we have and go on building at a reasonable cost, avoiding building city pavements all over the state. We can do it if we hold traffic in bounds. We cannot do it if we let traffic run away with us.

**Bridge's History.**

Reverting to the Rondout creek bridge, Commissioner Duffey said its history was unfortunate. He commended the making of the bridge a part of the highway, to be built at state expense, as the state should not leave a gap in a trunk line high-

## IN THE SERVICE OF OUR COUNTRY

CORPORAL JOHN F. EGAN.

Mrs. Eliza Egan of No 72 Ravine street, has received word of the safe arrival overseas of her son, Corporal John F. Egan of Co. C, 57th Engineers

Private Earl Blake DeWitt has returned to Camp Dix after spending a 5 day furlough at the home of his parents, Mr. and Mrs. Levan DeWitt, Gill street. Private DeWitt is stationed at 9th Battalion Infirmary, 153rd Depot Brigade, Camp Dix, N. J. He speaks highly of their treatment at camp and would be pleased to hear from all his friends.

Mrs Abram Myers of 19 Downs street, has received word this week from her grandson, First Lieutenant Clifford E. Myers, of Co. B, 11th Engineers, who has been in the front line trenches and in the very heart of all the recent hard fighting, that he is safe and enjoying good health. The communication was written at Paris while he was on a few days' furlough in that city. The many friends of Lieutenant Myers in Kingston will be glad to hear this good word from him.

## TWO MISSING IN ACTION; 1 WOUNDED

**Robert Robinson of Rosendale and Martin J. McHugh of City, Reported Missing in Action—George S. Burrows of Marlborough Wounded.**

Today's casualty lists released by war department contain the names of three Ulster county boys. Two are reported missing in action and the other as wounded severely.

Private Martin J. McHugh, Jr., of Company B, 307th Infantry, while his address in the casualty list is given as St. Mary's Home, Chestnut street, Binghamton, while in Kingston resided on West O'Reilly street, and was a plumber in the employ of the L. F. Bannon Company. At one time he also had charge of the company's store at Rosendale. He was working at his trade in Binghamton when drafted. He had been over there about four months. He is reported as missing in action.

Private Robert Robinson of Rosendale, is the other Ulster county man reported missing in action. He is presumed to be a son of Jacob Robinson, who formerly lived at Maple Hill, but whose whereabouts are now unknown.

Private George S. Burrows of Marlborough, is reported as wounded severely.

## DOUBLE KILLING IN NEW JERSEY

By Telegraph to The Freeman.

Rahway, N. J., Aug. 22.—Arthur L. Kupser, superintendent of the Perth Amboy cigar factory, and Miss Eva Janny, both of Perth Amboy, were murdered here early today, according to the police. Kupser died from a bullet near the heart. Miss Janny was shot through the back of the head. Both bodies were found in the street near an automobile in which they were riding. The authorities have absolutely no clue.

### GERMAN PRISONERS.

**100,000 Taken By Allies' One Month's Offensive.**

By Telegraph to The Freeman.

Paris, Aug. 22.—The Americans and British have captured 100,000 German prisoners since July 18, the Echo De Paris said today. The early capture of Noyon is forecasted.

The foregoing cable referred to only the British and Americans as capturing the Germans, but was probably intended to include the French as participating in the captures.

### Air Program Coming Along.

By Telegraph to The Freeman.

Paris, Aug. 22.—American aviation plans are four months ahead of the program, Senator James Hamilton Lewis, of Illinois, was told today.

## 100 DEAD IN WESTERN CYCLONE

By Telegraph to The Freeman.

St. Paul, Minn., Aug. 22.—More than one hundred persons are dead and two hundred are injured today, three blocks of the business district of Tyler, Minn., is in ruins and the residence districts east and west of town are reduced to kindling wood as the result of a cyclone last night.

Telegraphic communication with the stricken city is completely cut off, the only reliable information coming from the residents of Florence six miles away, who have returned after visiting Tyler. Bodies are buried in the ruins and according to reports received early today, twenty have been recovered so far. The Tyler hospital was completely destroyed, virtually all of the patients being killed.

According to an unverified report, a Northwestern passenger train was hurled from the tracks near Tyler and twelve people killed.

### German Paper Wants Light.

## THREE ALLIED DRIVES BATTERING GERMAN LINE

### Military Experts Expect Widespread Enemy Retirement on Salients to Swiss Border—British Continue Successful Offensive in Picardy.

Not since Von Kluck and his German hordes were hurled back from the gates of Paris in the early days of the war have the cables carried news of such tremendous importance and such big promise as that contained in today's reports of Allied operations between Soissons and Arras.

With his drives between the Oise and the Aisne, and between the Ancre and the Scarpe under full sway, Marshal Foch has renewed his Picardy offensive, the British attacking between the Somme and Albert, and the French launching forward again in the Lassigny sector. The combined attacks, along a front which covers in the aggregate upwards of seventy-five miles, have shaken the German battle line all the way from Rheims to the coast. In fact, military commentators see signs of a possible withdrawal of the enemy advanced sectors as far south as the Swiss border.

The capture of Lassigny by the French, announced by the French war office last night, makes a further retirement between Roye and Noyon practically a foregone conclusion. A farther advance of the British in the area of the renewed attack above the Somme would cause the Albert sector to collapse and force the German line in that region back to Peronne and further north to the Tortille river. This would leave Chaulnes in a sharp angle and necessitate a rearrangement of the lines in that sector.

Military men believe now that the Germans have no intention of making a permanent stand in Picardy west of a line roughly defined by the Tortille river between Peronne and Canal Du Ford between Noyon and Nesle.

Farther north the enemy continues to pull back from the Hazebrouck salient—erstwhile "jumping off place" for a proposed new dash to the Channel—while to the southeast his positions along the Aisne and the Vesle are growing more and more unstable as General Mangin pushes northward in his flanking movement.

The capture of seven more towns by the French army in the Oise-Aisne sector was announced today by the French war office. The Allies have advanced their line along the Oise east of Noyon for a considerable distance and the fall of that highly important German base seems to be a foregone conclusion.

London, Aug. 22.—(2:15 p. m.)—Another big offensive movement was begun today by the British. Field Marshal Haig's report, given out by the war office at noon, said:

"We attacked this morning between the Somme and the Ancre at 4:45 a. m."

Field Marshal Haig also reported that the prisoners taken yesterday in the offensive north of the Ancre numbered between two and three thousand.

Today's new blow by the British falls just below where General Byng swept forward yesterday. Yesterday's advance was made immediately north of the Ancre river. The Somme river lies south of the Ancre. The British are really just extending yesterday's battle front.

Further progress for the British northeast of Merville was announced. Haig reported that British troops are in the outskirts of Neuf Berquin.

(Neuf Berquin lies about two miles northeast of Merville, which is on the Lys front, where the British have been steadily forging ahead.)

Paris, Aug. 22 (Noon)—Seven more towns have been wrested from the Germans by General Foch. The war office today announced the new captures.

Noyon has nearly been surrounded by the French troops. The war office report stated that the French have pressed forward to the border of the Oise river east of Noyon.

The towns captured by the French are Le Plemont, Thiescourt, Cannectancourt, Ville, Bourgoinon, St. Paul Aux Bois and Poussons.

French troops also have reached the Allette river at one place.

The text of the war office statement follows:

"French troops are keeping in contact with the enemy in his retreat between the Matz and the Eru and east of the later.

"We occupied Le Plemont Thiescourt, Cannectancourt, Ville and reached Dirette.

"We attained the border of the Oise river east of Noyon from Sempigny to Bietiquy.

"We also took possession of Bourgoinon, St. Paul Aux Bois, and Poussons, and north of the latter village our troops reached the Allette river at Quincy Basse. With the exception of the region of the Pommers, of which French troops hold the western edge, there is no change between the Allette and the Aisne."

### Fear Allies Will Retaliate.

By Telegraph to The Freeman.

Berne, Aug. 22.—All art treasures have been removed from Cologne, according to advices received here today. The Germans fear for the destruction of the treasures by Allied aviators, it was stated.

### American Airmen Win.

By Telegraph to The Freeman.

With the American Army in France, Aug 22.—American aviators shot down two Boche planes during two flights in the Lorraine sector Wednesday evening. American bombers also raided Longuyon and Tuttrongen successfully.

## DRAFT BILL BEFORE CONGRESS TODAY

By Telegraph to The Freeman.

Washington, Aug. 22.—The "Win the War" man power bill, extending the draft ages from 18 to 45, was taken up in both houses of congress today. Passage by Saturday was expected by Senator Chamberlain, chairman of the senate military affairs committee. Chairman Dent of the house military affairs committee put a time earlier, although stiff fights are expected in both houses on amendments by the committees. The two major questions are whether the government shall be given power to break strikes in essential industries by drafting as proposed in the Reed amendment, and whether men of 18 to 20 shall be called only after all eligibles above 31 be taken, provided in the McKenzie amendment.

Secretary of War Baker is opposed to both amendments.

## WHY NOT PARADE FROM RONDOUT?

Inasmuch as 11 of the 19 men who are to leave for camp next Tuesday afternoon are from below the West Shore crossing and four of the remainder are from out of town, it has been suggested that it would be appropriate to start the parade in Rondout this time. The only reason advanced against this suggestion is that the men start from the office of the local board, but as the office of the local board may be wherever the board sees fit to make it, there is no reason why the board may not temporarily fix its office at some point in Rondout for this occasion only. The downtown section of the city would like to have a parade and many feel that on an occasion when most of the men in whose honor the parade is given are from that section it would be only fair to make the line of march from some point downtown to the West Shore station. It is not too late for those in charge to make the necessary change in arrangements.

### SUBS OFF FRANCE.

**Have Been Driven Far From Coast and Situation Is Excellent.**

By Telegraph to The Freeman.

Paris, Aug. 22.—"The torpedoing of ships is now only an accident," today declared Assistant Secretary of the Navy Franklin D. Roosevelt, in discussing the submarine question.

"The seaport is something like a bottle with the Germans lying around the narrow neck where the ships have to take a direct course, but the U-boats have been driven from their usual lair," said Mr. Roosevelt.

"We may expect them in the open sea but the submarines cannot know the routes of the ships.

"As a result of the co-operation of the Allied navies, the submarines have been driven 200 miles off the coasts on this side. The situation excellent. Italy's co-operation has cleared all submarines from the Adriatic. On the whole accidents may happen but they will be less frequent."

Mr. Roosevelt praised highly the French efforts to improve the ports, saying that America had aided in this work gladly as these improvements were not only for war use but after the war for commerce.

### Preference for Electrical Men.

By Telegraph to The Freeman

Washington, Aug 22.—Electric jobbers and manufacturers have been placed on the preferential list for priorities, the war industries board announced today. The electrical men will receive preferential treatment, however, only if they limit their output to essential products, the board stated. This decision was reached after a series of conferences between representatives of the electrical men and the board.

HIGHLAND.

Highland, Aug. 21.—Last Sunday Joseph Schantz and family motored to Millbrook, where they visited Mr. and Mrs. George Sahler and family. They spent a very pleasant day and had a delightful ride there and return.

Dr. and Mrs. B. W. Reynolds have entertained guests the past week from out of town.

Corsie Gunsalus is now enjoying his week's vacation, motoring to different places, visiting relatives and friends.

Mrs. Almina Freer has as her guests Mrs. George Freer and her daughter, Ruth. They reside in New York city.

The guests at the Whitley House at Woodside place had a jolly time this week eating green corn. They had a regular corn roast and it was good, I tell you.

Mrs. B. B. Harper of Clintondale, who has been at "Hillair" for two weeks, returned home on Tuesday of this week.

Edgar Eckert of Wilcox avenue is now employed in Daniel Starr's factory. They are present busy filling several large orders. This makes it good for some of the men here who did not have anything permanent.

Mr. and Mrs. Amos Scott and daughter, Grace, and Mrs. Emily Brundage of this place, motored to Camp Dix Monday week to visit with their sons, Amos, Jr., and Stephen Ward. They found them well and enjoying camp life as well as could be expected.

P. M. Terpening of West Park was in this place last Sunday calling on relatives.

Mr. and Mrs. Jere Miller of Poughkeepsie were guests last Sunday of Mr. and Mrs. Myron Terpening.

Mr. and Mrs. Zophar Aldrich and children of Springfield, Mass., who have been guests of Mr. and Mrs. Isaac Aldrich for a couple of weeks, have returned home.

Mr. and Mrs. George Cornell and daughter have returned from their annual vacation. They report a delightful time.

Mrs. J. S. Mack, of the famous "Hillair," has her house filled with first class boarders. She has had many applications that had to be refused. Last Sunday she had automobile parties from the city and has now about 40 guests, who have pleasures untold at this popular place.

Engagements seem to be the proper caper at present. We have just been informed of two of Highland's young people who have announced the affairs. Mr. and Mrs. H. J. Pratt at a luncheon given at their home on Saturday afternoon last, announced the engagement of their daughter, Miss Jane, to W. S. Betts of Marlborough. Alfred Palmer of Grand street is to marry Miss Elsie Welsh of Poughkeepsie. This announcement was given out last Sunday and the wedding date set for September 10.

J. C. Leo of New York city arrived here Friday at his summer home on Maple avenue. He with his wife will leave Saturday and motor to Massachusetts, where they will stay at one of the large hotels for a few days and while there will call upon several friends who reside there. This will be an ideal trip.

Several people from here attended the races at the Driving Park, Poughkeepsie, this week and enjoyed the sport.

Daniel Kurtz motored to Sundown last Sunday and he had a fine trip.

Harry Dobbs is one who is not to take a back seat. He is up to the times in making his place look very attractive. The painters have just applied the white paint and the dark green blinds make the house look perfectly new. These things make our village very pretty. If all would follow in his footprints of improving Highland homes would be more than attractive.

Mrs. F. L. Vail is entertaining relatives from Long Island for a short time.

Ladies' Aid of Presbyterian Church held their regular meeting Wednesday afternoon in the church parlors and had a good attendance and interesting meeting.

Miss Laura Palmer is spending two weeks at her home here before returning to school duties. The time is short now for both teachers and pupils but all have had quite a change and rest in many ways.

At Lewiston Lake boarding house on Vineyard avenue a great deal of sport is had by the guests, holding masquerade carnivals and other interesting affairs. There are a goodly number of people there, and Mr. and Mrs. A. Bloomer, host and hostess, never tire of doing all in their power to make everything attractive for their guests. They have music and dancing, games and auto trips, and programs some evenings, which certainly adds to the popularity of these people and the attractiveness of the place. Mrs. Bloomer serves refreshments evenings and the city people appreciate these things greatly.

Many from here have been fortunate enough to have some of their coal put in for winter. It is to be hoped that we will not experience such a frigid affair as we had last winter, which was mighty hard on everybody, with scarcity of coal and water pipes freezing up all over, making so much extra expense that people were most frantic.

John Schuhle, of grape juice fame, has been on a business trip to Boston. We presume we will hear of more uses of the beverage.

We hear from Miss Ida Van Nostrand that her brother, Lester, of Berkeley, California, was married on August 9th. This was quite a surprise to many. He had resided here for years before going to California, and has many friends who extend congratulations.

James Westcott and mother of Maple avenue have had as guests this week Charles Dimsey and Mrs. A. Freer of Jersey City.

Henry Horst of New York city was the week end guest at his country home on Maple avenue.

Mrs. J. C. Leo and Mrs. H. Horst have been entertaining guests this week from New York.

Mr. and Mrs. Orson Shepley of Grand street have city boarders, who at present, seem to enjoy the country greatly.

Miss Anna Waring has a few city people boarding with her.

Walter Seaman has now been called to report at Pelham Bay. He enlisted a short time ago in the navy. It seems that in a short time there will be no single men left here. They are looking scarce now.

Men have been in town this week looking after those who run automobiles. There are many cars run here by young boys who have no license, and some too young to get any, and now the law will be enforced in regard to driving autos and all who run commercial cars will have to undergo an examination and have their license as a chauffeur. Perhaps we may have less reckless driving and less accidents, for we have had them thick and fast of late.

We were glad to see Arthur Freer when home recently. He has been from here over three weeks and is now a lieutenant, but we miss him very much.

GRANITE.

Granite, Aug. 21.—Mr. and Mrs. Ray Freer and little son of New York city, are spending their vacation with their mother, Mrs. Josephine Freer.

Miss Gladys Sheldon, who has been quite seriously ill, is improving.

Cyrus Terwilliger has gone to Middletown, for the winter. We are all very sorry to lose such a good friend and neighbor.

Mr. and Mrs. Dan Vanderlyn and daughter, Ione, of Wallkill, motored to this place Sunday stopping at the home of their parents, Mr. and Mrs. W. D. Sheldon.

Mr. and Mrs. Wilbur Ingraham and children, Dorothy and Donald, of New York city, are the guests of their mother, Mrs. Imogene Slater.

Mrs. Peter Addis is having serious trouble with a felon on her hand. We all hope that she will improve soon.

Friend Sheldon and Mr. Ronk of Wallkill, spent the past week end in town.

Mrs. J. T. Gerline and son Sheldon, and Miss Alice Sheldon, returned to their home in Brooklyn, Sunday, after spending their summer vacation with their parents, Mr. and Mrs. A. B. Sheldon.

The Misses Thelma and Marion Terwilliger of Middletown, are visiting their grandmother, Mrs. Terwilliger.

Herman Benjamin is gaining slowly after a very serious illness.

Private Mead Rose and friend, Private Charles Vale, of Camp Upton, L. I., spent a short furlough with the former's mother, Mrs. Josephine Rose.

Floyd Terwilliger of Middletown, was in town Sunday.

KRIPPLEBUSH.

Kripplebush, Aug. 22.—The annual picnic of Kripplebush Council, No. 39, Jr., O. U. A. M., will be held on the lawn near their hall on Labor Day, Monday, September 2nd, both afternoon and evening. The Saugerties band will furnish music for the occasion. The program consists of a number of athletic events and other things interesting. The committee has secured for this occasion three prominent speakers, including Hon. Joseph M. Fowler, of Kingston, who is a candidate for the Republican nomination for county judge, at the primaries held in the various election districts throughout the county on September 3rd. Hon. Palmer Canfield, mayor of the city of Kingston, and Rev. Anton Beza, a former resident of this place, and a member of the council. A good supper and plenty of refreshments will be served during the afternoon and evening. Everybody welcome and bring the whole family. You will not regret it.

A number of automobile parties recently visited Orange Lake.

Mr. and Mrs. W. D. Van Demark of The Vly, and Mr. and Mrs. J. J. Christiana of this place, spent Sunday with friends at Lomontville.

Mr. and Mrs. Harry Shea are visiting relatives at Staten Island.

Mrs. James C. Van Demark has suffered a stroke of paralysis.

Ernest Palen of Kingston, spent Sunday with his parents at Lyonsville.

Jacob Hornbeck has moved in the house of George Cook, known as the France house.

There seems to be some interest taken in the primary election which will be held in Mechanics' Hall on Tuesday, September 3rd, from 7 a. m. to 9 p. m.

# PASS EXAMINATIONS FOR SCHOLARSHIPS

Albany, Aug. 21.—Abraham A. Jacobson, Ellenville; Helen R. Dangremond, High Falls; Aaron Beneson, Ellenville; Theodric Westbrook, Kyserike, and Joseph M. Watson, Kingston, are the five residents of Ulster county, entitled to scholarship valued at $100 a year at any state college or university.

Seven other Ulster county high school students passed the competitive examination for scholarships as follows: Harold T. Velie, Marlborough; James H. Betts, Kingston; Cathryn Schantz, Highland; Dorothy Vernon, Ellenville; Esther Birchording, Gardiner; Peter J. Ryan, Kingston, and Andries M. Cole, Pine Hill. The scholarships will be awarded according to examination percentage.

## ABOUT THE FOLKS.

Mrs. Fannie French of Brooklyn is the guest of Mr. and Mrs. James Draffen of West Union street.

The Misses Anna and Eva Newkirk entertained a number of their friends Tuesday evening at their home on Liberty street.

Mr. and Mrs. Matthew Clark of Lafayette avenue, are receiving congratulations over the arrival of a son at their home Wednesday.

John Costello, of the firm of Costello & Dugan, Wall street, is enjoying a vacation visiting friends in New York city and other places.

Mrs. Herbert T. Van Deusen and children, Burton, Herbert, Jr., and Verna, are spending some time with relatives and friends in Brooklyn.

Mr. and Mrs Andrew B. Keating have returned to their home in New York city after a week's pleasant visit at the home of Mrs. Keating's parents, Mr. and Mrs. Isaac T. Mesereau, on Spring street.

Miss Beatrice Palen left last week for Alexandra, Minn, where she will visit her sister, Mrs J. R. Dearth at Burning Summitt. In September they will tour to Mrs. Dearth's home at Hutchinson, Kan., where she will remain for some time.

William Geerhart, president of the Hudson Ship Building Co. of Newburgh, and wife, and George Atkins and wife and son, Bobby, motored to Albany Sunday. Mr. Atkins left for Watervliet Wednesday morning to superintend the work of bringing down some tugs and barges through the canal for the Shipbuilding Company.

### METTACAHONTS.

Mettacahonts, Aug. 22.—Dr. E. Osterhoudt and wife and daughter, Flora, and son, Lester, of Newburgh, who have been spending a week's vacation in this locality, with Mr. Osterhoudt's mother, Mrs. F. Zeaman, have returned home. While in town they attended the Sunday school picnic last Thursday and also attended the Ellenville fair on Wednesday of this week. They also called on many friends during their stay. On Friday they autoed to Ellenville and on Saturday they enjoyed a trip to Kingston, accompanied by Mrs. Zeaman and Mrs. Ben E. Burger.

The Sunday school picnic was a decided success. A very large crowd attended. All refreshments were sold out and $171 taken in. The Mohonk brass band furnished music, appreciated by all. People were in attendance from far and near.

William Wood was quite badly hurt on Saturday at Wawarsing, when a large car ran in Mr. Wood's load of baled hay, throwing him in the air and landing him between the team of horses. Luckily he was not as badly hurt as he might have been.

Many are planning on attending the Ellenville fair this week.

Mr. and Mrs. Charles Bell and son, Clifton, visited Mr. and Mrs. William Wood on Saturday night and on Sunday, accompanied by Mr. and Mrs. Wood and daughter, Gladys, they enjoyed an auto trip to Ashokan dam.

On Monday a car being towed by a truck on the state road, near Accord, and belonging to a man from Poughkeepsie, ran in Archie Depuy's car, damaging the one fender and wheel.

Frederick Zeaman of Whitfield, called on friends in town on Thursday afternoon and attended the picnic. His many friends were glad to see him looking so well.

Mr. and Mrs. Floyd Depuy and daughter visited their mother, Mrs. Louise Depuy on Wednesday and Thursday of last week.

Prayer meeting on Sunday evening at the school house.

Mrs. Henry C. Kuhpfahl and daughter, Mildred, of Newburgh, have been spending a week at the home of Mr. and Mrs. Charles D. Osterhoudt.

Mr. and Mrs. Roy Baker and son, Kenneth visited at the home of Mr. and Mrs. Charles D. Osterhoudt on Sunday.

The annual Sunday school picnic will be held at the Millhook grove on Wednesday, August 28. Music by the Ellenville band.

### Co-operation.

On a southern plantation were two small negro boys, Berry and Wesley, who did the milking. Wesley was industrious, but Berry was lazy and always tried to make Wesley do the work. One evening the lady of the house went out to the kitchen and said: "Berry, have you brought the milk in?" "Yes'm, I fetched it in, didn't you, Wesley?"

### Roman Builders' Good Work.

Several hundred miles of old Roman walls, at least seventeen hundred years old, are still standing in England today. The best specimen of this work of the ancient Romans in England is the wall which crosses Northumberland, from near Newcastle to near Carlisle. In many places, the decline of this wall is still intact, showing what marvelous builders these Romans were.

## BABIES AND AUTOMOBILES.

We publish today the sixth of a series of six articles on the subject of child welfare, which deal particularly with the large number of needless deaths among infants and young children and with methods for decreasing the number of such deaths.

The year beginning April 6 (the anniversary of our entrance into the world war) has been designated by the Children's Bureau of the United States Department of Labor as the Children's Year.

The articles represent a part of the campaign which the State Department of Health is undertaking in co-operation with the Federal Government for the conservation of child life.

The Division of Child Hygiene of the State Department of Health, Albany, is ready to answer any questions on the subject of Child Welfare which may occur to our readers.

THE EDITOR.

Many a mother can get pointers in the care of her baby by observing the way owners take care of their automobiles. Babies and automobiles have several things in common. The careful owner understands the mechanism and the inner workings of his car How many mothers are familiar with the anatomy of their babies and how many study a booklet on baby care. The automobilist knows how to feed his car and that it will not run well if the mixture is too rich or too lean or if there is not the correct amounr of air. The amateur mother makes many mistakes in feeding her baby, and she generally gives too much food and too rich a mixture or too little food and too lean a mixture and at irregular intervals.

Automobiles are water cooled. They must have plenty of water, especially on hot days. If the radiator is covered up there is no chance for the air to circulate and the engine gets overheated. Babies require similar care, and the mother should see that they receive plenty of cool boiled water in summer and that they are not overdressed. Automobiles to run smoothly must have clean cylinders. Their insides must be kept clean and free from carbon—and should get plenty of oil. The baby's cylinder or intestines must never get clogged up, and oil assists in the cleansing process.

The owner of the automobile takes pride in its appearance, sees that it receives a daily bath and is well polished and brushed. The fond mother should take even greater pride in the cleanliness and appearance of her child. If the owner cannot care for or drive his car himself he employs a trained and experienced chauffeur and would not think of entrusting the car to an inexperienced person Alas, and not infrequently to the permanent injury of their children, many mothers entrust the care of their babies to ignorant, inexperienced and careless or diseased nurse girls.

The mechanism of the body is far more delicate than that of any automobile. Progressive and successful automobile owners find that it not only gives satisfaction, but it is a paying proposition to have a careful inspection of their automobiles made every month. It is more expensive to wait until something goes wrong. Repairs are avoided if the machine is regularly inspected. Why not follow this example with your baby? Take him regularly to an experienced physician or Infant Welfare Station. A timely word of advice or caution will often prevent trouble which would be discovered later by sad experience. The New York State Department of Health wants to give you advice and help and a request with a postage stamp will bring you an attractive booklet entitled "Your Baby—How to Keep It Well."

### ST. REMY.

St. Remy, Aug. 22.—The Sunday school picnic was well attended and a success.

Miss Rosina Kuhoupt of Jersey City, visited friends in this place the past week.

Dr. Dudenhausen was in New York city last week.

Miss Sadie Schultz spent a few days with friends at Camp Dix recently.

Rain is much needed as cisterns and wells are dry and gardens are drying up.

Mrs. Jacob Frost and children are visiting friends at Wallkill.

Mrs. A. Rathenberg and son, Robert, are spending a few days with Mrs. Mary Agnew.

The farmers have finished harvest.

Several from this place attended the patriotic meeting at Rifton on Sunday night.

The city people are returning home

Mr. and Mrs. A. DeGraff of Kingston, Gardner DeGraff and family of Oyster Bay, and Mr. and Mrs. Harry Carver of Ellenville, were guests of Serena and Henry DeGraff last Sunday.

Rev. and Mrs. Henry Smith were guests of Mr. and Mrs. Edgar Ellsworth last Monday evening.

## UNITED STATES ROAD RULES

### Motorist Must Take Outside in Passing Team on Mountain Road With Steep Grade.

The government's rules for motorists covering the roads in the national parks require that, in passing a team on a mountain road with a steep grade to one side, the motorist always takes the outside of the road, whether it be to the left or right. This is the rule of safety and courtesy on all little traveled mountain roads.—Milestones.

### Roads During War Time.

Despite the war there should be no letup in the construction and maintenance of our highways, for today they are more necessary than ever before.

### Loss of Labor and Money.

Not to have good roads will mean a waste in crops, loss of time in hauling produce, and in general a loss of labor and money.

### Beeswax for Cracks.

Cracks in furniture may be filled in with beeswax. Soften the wax until it is like putty, then firmly press it into the cracks and smooth over with a thin steel knife. Sandpaper over the surrounding wood and work the dust into the wax. This gives a good finish or color, and when the furniture is varnished the cracks will disappear. Beeswax is better than putty, for putty soon dries, crumbles, and falls out.

### "Lead" Pencils.

The common black lead pencil is made from graphite and contains no lead. Lead pencils received their name from the leaden plummets which were used to rule lines on paper before the use of graphite.

### The Other Way Round.

Either success or failure comes to those who stay away from the beaten paths.—Winnipeg Telegram.

### Well Rewarded for Victory.

After Waterloo the British parliament purchased for the duke the estate of Strathfieldsaye at a cost of £100,000. The king of the Netherlands grateful for restoration to his throne, created the sister Prince of Waterloo and presented him with large estates. Other distinctions included the orders of the Garter and the Golden Fleece and the rank of field marshal in eight European armies.

### Metropolitan Jealousy.

It is characteristic of New York that it has to have a name of its own for that part of the Hudson which washes the shores of Manhattan. Doughty old Hendrick Hudson's name would seem an appropriate one for any river, and that part of it which lies between the Palisades and The Bronx is not north of anything in particular, except possibly New Jersey or Florida, yet the Jersey New York calls it the North river, apparently unwilling to share even a name with "upstate."

### Monkey's Valuable Discovery.

A literary discovery has just been made at the monastery of Mekhitarists, in the island of St. Lazarus, at Venice. A pet monkey had climbed to the top of a bookcase, where it seized hold of a bundle of papers, and, breaking the string, showered down a number of letters, the ink of which had become yellow with age. They proved to be a long correspondence between Lord Byron and the monks of St. Lazarus, with whom he had once resided.

KINGSTON, N. Y., AUGUST 22, 1918

"Why have we no friends?" is now said to be the constant and puzzling question in Germany, yet ordinary pirates would never think of asking a question with so self-evident an answer.

The Pan-Germanists and so-called Liberals of Kaiserdom are said to be violently disputing as to what brought America into the war, yet there is no room for dispute and the obvious answer is to be found in just one word: Germany.

The Cologne Gazette complains that the people of the Rhine valley are wailing: "Another defeat for us; we shall lose the war. We have nothing to eat, no clothes, no shoes; we shall starve and be utterly ruined." Then, why don't they persuade the rest of the Germans, clap irons on the kaiser, and quit? That would seem to be the shortest road out of their troubles.

A London advertiser announces that, though he is a Briton, he does not claim "any merit for this" and only wishes to be judged by "upright and lenient dealings" with all his clients. Suggests a slight comedown since the days of the proud captain of "H. M. S. Pinafore," who, in spite of all temptations to belong to other nations, remained an E-e-e-e-eng-lishman.

It has leaked out of Germany through Holland that the Kaiser's armies on the west front are weaker even than the Allies have been hoping, but a similar leakage out of Germany has preceded every big sudden Hun offensive and experienced General Foch is not likely to be induced to permit his armies to go off on a picnic.

## THE REAL GERMANY.

If any one in this country still imagines that the German people have not been heart and soul with their leaders in this war, or that they have not approved the savage methods which they call "schrecklichkeit," such an impression will hardly survive a reading of the seventeenth chapter of the serial story of Dr. Arthur E. Davis describing his experiences in Berlin where for years and up to some months ago he was the chosen dentist of the Kaiser, the royal family and many prominent Germans. To some of us it may seem almost incredible that the Kaiser talked so freely to his dentist about State affairs, but Dr. Davis is evidently widely informed and there is no reason why his view of the war temper of the Germans should not be regarded as altogether reliable. Referring to the Kaiser's speech to troops at Potsdam in which he told them that they "belonged to him body and soul" and that even if he ordered them to shoot their parents they should "obey without a murmur," Dr. Davis says the Germans are "the most willing vassals in the world," and are ready to support any course whatsoever that may be chosen by "the idol they have worshipped slavishly for so long"—adding:

With this spirit of devotion dominating the people generally, it was only to be expected that they should have stood solidly behind their Emperor when he sought to achieve the one ambition of his life—world domination. No measure that was taken by Germany, no matter how atrocious, ever brought a word of condemnation from the German public as a whole, although there were some notable exceptions. The great majority of Germans who discussed these matters with me, not only defended everything Germany did but complained because more vigorous measures were not taken. Did the German people countenance the submarine warfare and the slaughter of innocent women and children, in defiance of international law and the dictates of common humanity? They had only one criticism to make of it—it was not comprehensive enough. The whole world should have been declared a war zone, they said, that death and destruction might be dealt wherever and whenever the opportunity offered. Every ship that sailed should be sunk, and every American who ventured within range of a German gun, on sea or land, should be shot. That was the universal sentiment. The jubilation with which the news of the sinking of the Lusitania was received by the German people was general. I have failed to find a single German who did not exult over the dastardly crime, and the air raids on open towns evoked similar demonstrations.

Dr. Davis does not confine himself to general assertion but attributes such sentiment to prominent persons whom he mentions by name, including the Countess Sierstorpff who passionately declared that every Italian work of art should be utterly destroyed so that bereft Italy "will be sorry for what she has done to Germany." There is no further room for illusion or charitable doubt. The long accumulating testimony is complete, showing beyond question that not only the Hohenzollerns and Junkers but the Germans generally lust after world dominion and that they approve, that they even demand savage methods of warfare.

## LITTLE LAUGHS.

"Josh Billings said he was an honest man because jail life didn't agree with him." "That was frank, wasn't it?" "No—it was Josh. Never heard of Frank Billings."—Boston Transcript.

Lawyer—"What was he arrested for?" Mike—"They told me at the station that he took one to much." Lawyer—"Too much or too many?" Mike—"What is the difference?" Lawyer—"Intoxication or bigamy." —Life.

"What's your idea of the difference between a statesman and a demagogue?" "Well," replied Senator Sorghum, "a statesman tries to lead the people. A demagogue raises a holler and tries to stampede them." —Washington Star.

"My dear woman," asked the literary slum visitor, "do you periodically castigate your offspring?" "I dunno?" said the lady of the tenement, suspiciously. "He means," translated the settlement worker, "do you ever wallop your kids?"—Baltimore American.

### Must Have Been German.

Dr. William T. Manning, rector of Trinity Church, said at a dinner in New York:

"Trinity's service flag has now more than 400 blue stars in its white field—400 Trinity men are serving with the colors.

"How the Germans are despised and hated! Our service flag proves it and we see fresh proof every day. Thus a seat hog in a street car the other afternoon paid no attention when the conductor asked him to make room for a lady.

"'Move up and make room, can't you?' the conductor repeated.

"Still the seat hog sprawled his length over other people's space, and so the conductor appealed to the passengers.

"'Can anybody here,' he said 'tell me the German for "Make room for a lady, please"?'"—Exchange.

### Very Bad Company.

A canny Scott was brought before a magistrate on the charge of being drunk and disorderly. "What have you to say for yourself, sir?" demanded the magistrate. "You look like a respectable man, and ought to be ashamed to stand there." "I am verra sorry, sir, but I cam' up in bad company fra Glasgow," humbly replied the prisoner. "What sort of company?" "A lot of teetotalers!" was the startling response. "Do you mean to say teetotalers are bad company?" thundered the magistrate. "I think they are the best company for such as you." "Beggin' yer pardon, sir," answered the prisoner, "ye're wrong; for I had a bottle of whiskey, an' I had to drink it all myself."—Exchange.

### Who Cares.

William Jennings Bryan said in a temperance address in Louisville: "Why does the world so malign Kentucky? I heard the other day a malignant story about a Kentucky colonel. 'Colonel,' a man asked him, 'Is there any cure for snake bite except whiskey?' 'Who cares,' snorted the colonel, 'whether there is or not?'" —Buffalo Commercial.

### A Rule of the Road.

"You are fined for assault and battery," said the police justice.

"But judge," insisted the motorist "I didn't mean to run the man down."

"But you were driving on the left side of the road. Don't you know the law requires you to keep to the right?"

"Yes, judge, but I'm left-handed." —Exchange.

# DUFFEY TELLS WHY BRIDGE MUST WAIT

(Continued from Page 1)

way and the bridge was too costly a project to be borne locally. He reviewed the highway finances and stated that under ordinary conditions there was enough money on hand to pay for the bridge. On coming into office he found only tentative plans for the bridge. He procured complete plans and estimates and advertised for bids. This was in the spring of 1916 and the steel market advanced so sharply before bids were in that all bids were over the estimates and had to be rejected. Since then steel has advanced from $85 a ton to some $225 a ton. In order that some progress might be made a contract for the piers was let and here came another tragedy. The contractor finished one pier and brought another up to the water line and then broke down. He has now gone into the army service. The surety company that was on his bond has gone into the hands of a receiver and we have no bond.

### We Have the Money.

"But we have got the money to build the bridge—not at present prices, but in normal times. With the appropriation made last spring we might have enough to build it now, but it is impossible to obtain steel for this purpose. The United States needs all the steel. I have not asked them for it, for I could not conscientiously say that this bridge is necessary to the winning of the war. It would take years to build the bridge and we all hope that before that time has elapsed we shall have won the war. Do you want me to ask for this bridge now? Wouldn't it be in the way of some need having to do with the winning of the war? If you want me to ask I will do so.

"But if we yield to the situation now, the bridge will be built ultimately. There is no uncertainty about it. The money is on hand. It cannot be diverted, for there are no more state roads to be built in your county. It is more than a local matter. It is a state matter, the completion of Route 3. What commissioner will dare stand up against the completion of Route 3 by bridging this gap in it?"

Commissioner Duffey said he would reply to any question any one might ask. Mr. Hathaway asked if there were any chance that the money might be frittered away.

Commissioner Duffey said there was absolutely none. The money was specifically for state trunk lines roads. None remained unbuilt in Ulster county except the bridge. As to the $129,000 appropriation, which may be needed, of course the legislature could repeal that, but of course they won't.

## THE KITCHEN CABINET

Blessed is he who is such a friend to humanity that he seeth good in every man, for his own spirit shall be constantly enriched by the Christ spirit.

### SEASONABLE DISHES.

Now that lettuce, even the head variety, is reasonable in price it should be used freely. In the green leaves of plants is a substance which promotes growth and is indespensable as food for children. A simple salad which all will like and one which is wholesome and good for the little people is head lettuce dressed with a sprinkling of chopped onion; the mild green or the southern onion is best. Add a teaspoonful of peanut butter to the French dressing which is made by using three tablespoonfuls of oil to one of lemon juice or mild vinegar, a few dashes of salt and cayenne, all well mixed with the peanut butter and poured over the lettuce. Chopped peanuts may be used for the older people who will promise to masticate the nuts well.

**Barley Pudding.**—Wash a half cupful of barley and put into a pudding dish with four cupfuls of milk, a third of a cupful of honey, a half teaspoonful of salt, a half teaspoonful of cinnamon and a tablespoonful of fat. Stir often during the first hour of cooking to keep the barley from settling.

**Barley Fifteen Minutes Pudding.**—Take a cupful of barley flour sifted well with a teaspoonful and a half of baking powder, a half teaspoonful of salt and mix with a half cupful of rich milk. Butter small cups and put into each a spoonful of the mixture, add a tablespoonful or two of any juicy fruit, like cherries, strawberries or any canned fruit desired. Cover with a spoonful of the batter, set the cups in a pan of boiling water, not enough to boil up into the cups, cover with a tight cover and boil fifteen minutes. Turn out of the cups and serve with cream and sugar or with a sauce made of the fruit juice.

**Curry of Beef Heart.**—Pour a pint of boiling water over a beef heart and let it stand ten minutes, drain and trim. Chop an onion and brown in two tablespoonfuls of the fat, then the heart cut in bits and rolled in seasoned flour. Add a half cupful of water and replenish as it boils away. When cooked add a tablespoonful of curry powder and salt and pepper to season.

Mrs. Myra Wells and daughter, Frances, of Brooklyn spent Tuesday with Mrs. Kate Ribley on Bayard street.

Mr. and Mrs. C. D. Jump of Hensonville spent Tuesday with Mr. and Mrs. Harry Jump on Broadway.

John Groves of Broadway is ill of pleurisy.

A great many people were much disturbed Wednesday morning as there was no stage running and people stood on corners waiting for an hour for them to arrive. It is too bad that some arrangement could not be made for some one to have their auto running all the time, thereby giving the public a square deal.

Mr. and Mrs. Edward Barley and family moved from their home on Salem street Wednesday into the house of Arthur Gill in May Park.

Mr. and Mrs. George T. Van Aken of Broadway attended the Ellenville fair Wednesday.

Mrs. Arthur Keyser of Jersey City and Mrs. George Lawson of Kingston spent Wednesday with Mr. and Mrs. Alexander Crook on Broadway.

# CITY LEASES POINT PARK FOR 5 YEARS

### Board of Public Works Grants Street Force Raise of 25 Cents a Day—Tree Expert to Submit Report Later—Sewer Under Sidewalk.

The two most important matters taken up at the regular monthly of the board of public works held Wednesday afternoon at the city hall was the decision to lease Kingston Point Park for five years, and granting the street force a raise in pay of twenty-five cents a day. The board also considered other business. Mayor Canfield presided and all of the members of the board were present except Commissioner Brigham, who was in New York city, where he had been called by the sinking of one of his brick barges, and he was making arrangements to have it raised.

When the board leased Kingston Point Park from the trolley road this season there was included in the lease an option which permitted the board to renew the lease of the park for five years at the annual rental of $1,001. The park this year will officially close on Labor Day, but it will remain open as long as the weather permits under the present plans of the board. Of course, there will be no further band concerts after Labor Day.

The board also acted upon the petition of the street force asking for an increase in pay and decided to boost the pay of every employe on the street force 25 cents a day. The laborers will now receive $2.75 a day, single rigs $4.50 a day and teams $6 a day.

The board rescinded an ordinance and plans calling for the building of a sewer on Foxhall avenue in the street, and adopted nother ordinance and plans for a sewer to be laid under the sidewalk. This sewer will be built in the section of Foxhall avenue, near Downs street, which has no sewer facilities and in which the residents petitioned the board to have a sewer built.

Mayor Canfield reported that Professor L. D. Cox, the state tree expert, had been in Kingston making a survey of the trees in the parks, streets and on the public school grounds and would submit a report which will ultimately be published by the state college of forestry. This report will cover the present tree situation in Kingston and will make recommendations as to the treatment of the trees in the future in the city.

Commissioner Staples called attention to the condition of the guard rail on lower Broadway, near Newkirk avenue, and it was referred to Superintendent VanKeuren to report back.

Several routine matters were taken up before the board adjourned.

# HILLS OF FRANCE LIKE ULSTER CO.

**Trowbridge Reminded of Home by the Hills but the Funny Dress of the People Tell Him He's Far Away.**

The following letter was recently received by Mrs. Jason Trowbridge of Olive Bridge from her husband in France:

My Dear Wife:

Received your letter last night and was very glad to hear from you, it being so long since I last heard of you. I have been made first class private and we have horses now. I am in the barn taking care of them I have a little room in one end of the barn. I sleep there, too, and the sergeant sleeps by me.

All of the boys are here that I left Camp Dix with. We sure get good eats here, too. Can't find any fault. Had a fine trip coming over although I didn't write about it in either of my letters. We came through England and stayed in a couple of rest camps. We also passed through several towns, "some fine country."

This country here looks like some of the hills back home, but the weather is much different It don't get dark until eleven and begins to light again at four o'clock.

Dear, you know how the people used to dress in olden times, with wooden shoes. You remember of seeing them in pictures. Well that is the way the farmers look over here. The women wear little white things on their heads and those funny dresses. I sure wish you could see them. It is quite amusing to see them go around in those little wagons they ride in.

Well, I have just had my dinner and suppose you are just having your breakfast back there in good old U S. A. That is the difference in time here or home

Have any more of the boys been called from around home since I left?

I see lots of German prisoners here and some of them look like "kids"

Tell "dad" he ought to see some of the crazy horses, we have here.

Please don't forget to send me some Prince Albert tobacco, as I can't get that kind here.

It is raining here today. That is the first in a month, There hasn't been a thunder storm since I have been here Guess they don't have any

Will close now as I have to get busy Will write more later. With lots of love for your own little self.

JASON K. TROWBRIDGE,

## CANNING KITCHEN CLOSES.

**To Give Up High School Quarters After Successful Summer.**

After operating successfully during the summer, the Kingston Community Canning Kitchen which has been carried on at the high school since the close of the school, has been obliged to give up its work for the season, as it is necessary to give the janitor his vacation and have the kitchen and all appurtenances ready for the opening of school directly after Labor Day.

So well established has the kitchen become, that it is too bad that there could not have been some way in which the work could have been carried on during the fall when tomatoes and other vegetables, peaches, grapes and other fruits will be ready for canning.

In addition to canning over 1,000 cans of vegetables, besides jams and jellies, the kitchen has proven more of an educational factor than was even hoped for. There have been many visitors, who have been so impressed with the need and desirability of canning food for future use, that even though they might not be able to have their canning done at the kitchen, they have decided to do more canning at home than they otherwise would, and have been glad to learn all that they could at the kitchen.

Thanks to those ho have given their financial backing to the project, in addition to what has been received for work done, the kitchen has been self supporting.

The last piece of work done at the kitchen was the making of 50 glasses of crab apple jelly for our soldiers, and the same will be sent to the Red Cross. The apples for this jelly were given by Mrs. Brown of Sleightsburgh, while the kitchen furnished the glasses, sugar and work.

A little later the managers of the Community Kitchen will give to the public a full and official report of what they have done during the summer.

## SOCIAL WELL ATTENDED.

**Proceeds of the West Shokan Lawn Social.**

The Red Cross lawn social that was held on Lucas Palen's lawn on Friday, August 16th, was well attended and we wish to thank all the people who helped us make it a success. The full amount taken in was $32.50, expenses $1.50. The club will hold $2.00 for necessary supplies, such as thread, etc. The $30 will be given to the Phoenicia Chapter.

**Red Cross Sale Labor Day.**

Mr. Lambert has given permission to the Red Cross workers of the West Shokan branch of the Phoenicia Chapter, to have a booth in his grove on Labor Day at the yearly Boiceville reunion. The booth will have for sale aprons, bags, caps, postals and many other useful articles and souvenirs. Every one is asked to donate something to sell, be it ever so small it will be appreciated. Please write your name on a slip and attach to the article you give. Proceeds will be for the benefit of Red Cross, "Help Our Boys." Those wishing to hand in articles before day of sale, please leave with one of these ladies, Mrs. Nelson Bell, Mrs. Marshall Roosa or Mrs. Lucas Palen.

# INTEREST KEEN AT ELLENVILLE FAIR

(Continued from Page 1.)

held up, even quarters and well sprung ribs.

**Children Raised Superb Vegetables.**

The War Garden Club, comprising fifty school children of the Ellenville and vicinity schools, makes the first display of their useful productions with much pride, for these children have certainly produced vegetables that cannot be surpassed.

Abraham Miller, Margaret Moore and Mary Watson exhibit, with their heavy garden production, beans and peas they first raised, then canned.

These gardens were planted and worked by the direction of H L. Smith, teacher of agriculture in the Ellenville schools, and altogether obtained almost maximum production of five acres.

Gerald Brown's best efforts are peerless deep red, large and perfect sized, smooth and well fleshed tomatoes.

Sarah Strolowitz brought samples of her production in a market basket, draped in American colors.

**Foreign Types of Tomatoes.**

Helen West, of Napanoch, is complimented for the specially fancy method of presenting her samples She raised not only all of the common vegetables, but the fancy and uncommon, such as the small yellow Italian, and the small green Spanish tomatoes.

Margaret Moore, of Ellenville, raised superb, large Hubbard squash with other vegetables.

**Fancy Cabbage.**

Charles Berger, of Wawarsing, raised very fine A-1 Early Rose potatoes.

John Fleckenstein, of Ellenville, produced the best grown peppers, egg plants, and the fancy Savoy cabbage rarely raised in this country.

**Garden Club Contestants.**

Gerald Brown, Charles Burger, Alfred Coons, Viette Count, Hilda Damms, Rosie DeWitt, Frances Divine, Luck Drucker, Minnie Drucker, Floyd Eck, Ella Eull, Julius Ewigkeit, John Fleckenstein, G Christine Fulford, Frank Gray, William Hoyt, Mildred Kuhlman, Abraham Miller, Margaret Moore, Beatrice Newkirk, Esther Philips, Kenneth Philips, Jack Pockriss, Freda Rappaport, Nora Rappaport, Gussie Reides, Lillian Rosenberg, Nathan Rosenberg, Charles Rosenstock, Manuel Rosenstock, Marion Simpson, Harry Smith, Sara Strolowitz, Arthur Terwilliger, Harry Thayer, William Thornton, Minnie Tractenberg, Allen Townsend, Lenore Townsend, Mary Watson, Helen West, Raymond Wilhelm

**Choice Imported Cattle.**

The features of the cattle show are the imported Guernseys from the Island of Guernsey owned by J. O. Winston and brought to the fair purely for exhibit from the Saugerties farms by the superintendent, R. N. Ingersoll. These are rare types of the highest and most productive. They are:

"Imported Violet of La Croute," 48.373, having the 365 days' record or 12,374.45 pounds of milk and 567.48 pounds of butter fat.

"Imported Tregonning Dairy Maid," 59,722.

In the Guernsey domestic herd of the Winston registered cattle are:

"Great Bull Ultra May King," 5 years old, weight 1,300, No. 27,600; Sire, "Don Bernards" of Linda Vista 20.617, dam, "Ultra Lady" 38.913 first prize show cow at the National Dairyman's Show, Springfield, Mass., 1916.

The Saugerties farm sold "Saugerties Ultra Prince" 48,725; sire "Ultra May King;" dam, "Bullet Glendas Bullet girl." 29,517, to E C. Clifford, president of the Crystal Spring Water Co., at Pine Hill. This bull will be shipped to Mr. Clifford's farm at Sandlake, Rensselaer county. This is the first exhibition of these cattle since the National Dairyman's Show.

Harry Titsink, the herdman of the Saugerties farm accompanied these cattle in shipment to Ellenville. They were brought over the West Shore and across the city to the Ontario & Western by the U. & D., and arrived on the grounds in first class condition.

**High Point Farm Guernseys.**

Jules Breauchaud, owner of the High Point Springs farm, at Olive Bridge, exhibited four calves of Guernseys, the product of "Ultra May King." Their master-piece on the farm was also brought to Ellenville. It is the bull, "Triple Masher of Harbor Hill;" sire, Mashers' Galore," owned by Clarence Mackey. The herd is in charge of Superintendent Frank Roosa. Welsh and Wintish of Ellenville, are exhibitors of Guernseys.

Chester Young exhibits two herds of registered, two herds of grades and two herds of the young of each of the above of Holsteins.

Other Holsteins are shown by Antone Leipold of Ellenville, and L. A. Hornbeck of Napanoch, who has in the herd a magnificent registered bull.

Frank Seaman, Yama Farm, Napanoch, has a very fine herd of registered Jerseys.

**Track Events Today.**

Today's 2:21 pace or trot is followed by the 2:27 class. The entries in both classes are large. The 2:30, the name race for Ulster county horses and the Free-For-All will follow one after the other. Friday, beginning at 1 p. m., the races are the three five heats, National Trotting Association rules. The starter in the races is W. F. La Hill of Keene, N. H., who is called so far at time and engagements permit to the several fair races in this part of the state where he is well known and well liked. Between heats he gives vocal selections of patriotic music, singing in accompaniment with the band. He is also the Judge in the horse department. The judges are: E. P. Terwilliger and W. S. Doyle of Ellenville; James H. Shiels of Lackawack. Timers: J. O. Poole and L. A. Hornbeck, Ellenville, and F. J. Osborne, Montticello

**Wednesday's Races.**

The 2:16 class, purse, $300, was finished in three straight heats. The winner was "Princelyn," C. H. Wheeler, Stamford. Second money, "Worthy Binger," H. L. Murray, Chester. Third money, "Shiptoe Vell," J. Mullin, Teeswater, Canada. Fourth money, "Deltie," Charles Mabrey, Goshen. Time—2.16½; 2:15¾; 2:16.

In the 2:35 class, purse $200, the race was won by "Elmer Hall," Charles Mabrey, Goshen, in the second, third and fourth heats. "Keylock" took the first heat and finished second in the second and third heats, and fourth in the fourth, taking second money. "Play Boy," Fred Vance, Middletown, took third money. "Ada Rea," George Thayer, Bushville, fourth money. Time—2:24¼; 2:29¼; 2:26¼; 2:28½.

**Friday Races.**

In the free for all tomorow, new owners and horses appear. Among them is J. Mullin of Teeswater, Canada, who brings the bay gelding Roy Grattan and the black mare Phyllis Admiral, two good track performers.

Already there are entered in this race eight good horses. In the 2:30 class Friday there are 14 and the Ulster county six. These promise to be three cracker-jack events.

At the close of Wednesday's races Charles Mabrey of Goshen, it is said, sold "Elmer Hall," the brown gelding who made the mile in 2:26¾ recorded and announced time, for $800. An Ellenville party, it is said, bought the horse, believing he can step in 2:24.

# Wm. Church Osborn---
# His Cause and Career

HE is putting it up to the people!

That is why Wm. Church Osborn of Putnam County, this State, is a candidate for the nomination of Governor on the Democratic ticket in the coming primaries.

The issue is one that involves the full meaning and the full scope of the Primary Law—whether Murphy and his associates, like Hearst, shall have the power to meet in "conference," dictate and select the nominees of the Democratic party, and say to the voters: "Here are your candidates, take them and support them."

Mr. Osborn believes that if men like Murphy and his associates can pick the candidates and get the voters to accept them, that the Primary Law is dead and done for. He wants the people to do the picking, that they may exercise their full and free right to select the candidates and give to the State of New York men who are not tied hands and feet to the apron strings of selfish and tyrannical party bosses.

But who is Osborn, that he would step out of the ranks of his party and champion the cause of the people in safeguarding the Primary Law?

Is he a Democrat?

Is he loyal to his party?

Has he the training, the experience, the ability and the energy to make the fight and lead the cause of the people?

Wm. Church Osborn is a Democrat, tried and true, and he is one of the best known, most high-minded, public-spirited and able members of the party in the State. His father, Wm. H. Osborn, was the confidential adviser of Governor Samuel J. Tilden, and it was he who procured the evidence that broke the evil power of "Boss" Tweed and landed him behind the prison bars. Could the son of such a father be anything but the foe to the lawful successors of "Boss" Tweed? Could he sit in "conference" with them and dish out pottage to those who feed and fatten on political patronage?

He is above that. He loves politics, but politics to him is the stepping stone to good citizenship and patriotic leadership. Mr. Osborn is in it for the good he can do—not for himself, but for the State, the people and the cause of good government.

In his home county he is known as "Will" Osborn. He has been a worker, a fighter and a leader in his party since maturity. He is a man of broad experience, and he has done big things in the fifty odd years of his life. He is a farmer, a lawyer, a business man and a keen student of men, of conditions and of public affairs. At thirty-one he was a delegate to the Constitutional Convention, and his work made him a power in the convention. Governor Roosevelt appointed him State Commissioner of Lunacy. Governor Dix appointed him his legal adviser. For several years he was chairman of the Democratic State Committee, and he has always kept in close touch with public affairs, and with everything that would benefit the State, or bring about better conditions among the people.

Mr. Osborn has made a thorough study of the water powers of the State, of the railroad and transportation problems, of canal possibilities, of the development of idle lands, of everything that betters farm life and conditions, and of the ways and means to bring about harmony between all classes of people in the State. He has been interested in the Granges, in cattle breeding, in better markets for farm produce, in bigger crops and better returns for the farmers. He is a life member of the New York State Agricultural Society, and he was one of the founders of the Patriotic Farmers Fund—a fund that has been the biggest private factor in America in helping to feed the Allies and win the war.

There is no man in New York State who is more honestly interested in farm life and farm work, nor is there any other man in the State who is so anxious to have the food supply of the farms brought to the cities at prices reasonably within the reach of everybody. Better transportation and simpler methods of distribution will accomplish this, Mr. Osborn believes, with profit to everybody concerned. In Putnam County it would be hard to find a farmer who doesn't know "Will" Osborn, and who doesn't look upon him as a friend and comrade.

Mr. Osborn is a staunch American. He loves children. He has faith in the people. He believes in the good influence of women in politics. Every bit of his strength and every fibre of his being are and have been devoted to studying the means and methods of mobilizing the resources of the State, with a view of helping the President win the war. His patriotism is ardent, unquestioned. He has three sons in France, and two of them have been wounded in battle, while the third is head of Military Department of the Red Cross. His daughter is engaged in Y. M. C. A. war work, and her husband is in the American Army in France.

These facts do not and cannot give a stranger full understanding of the fine character, the active life and the Democratic spirit of Wm. Church Osborn. He would make an ideal Governor, for no man would bring to the office a greater knowledge of law, of finance, business, farm life and work, and of social and economic conditions, and none would bring to Albany a greater energy, a more fearless independence or a more unselfish spirit than "Will" Osborn of Putnam County.

Democrats of the great State of New York, the two candidates of your party stand before you—one of them the choice of Charles F. Murphy and his associates of Tammany Hall; the other, Wm. Church Osborn, farmer, lawyer, citizen of high repute, a patriot and a statesman.

Take your choice—for yourself and your State—then go to the Primaries and cast your ballot honestly and thoughtfully in these memorable days of War, when History is written in blood, in sacrifice and suffering.

## VICTORY MENUS.

**These menus, planned to conserve time labor and money, to save the foods that are scare and use those of which there is an abundance, are Victory Menus in more senses than one. They are prepared by the Department of Home Economics of the State College of Agriculture and endorsed by the New York State Food Commission.**

**Friday.**

Blackberries; wheatless toast; *coddled eggs; coffee.

Lunch or Supper—Delmonico potatoes; bean muffins; pineapple and cottage cheese salad; *cocoa; cornmeal and rolled oats cookies.

Dinner—Salmon salad with cucumber dressing; scalloped potatoes; *fruit tapioca with boiled custard.

Milk for the children to drink at each meal.

*(May be omitted and still leave a balanced meal.)

**Cornmeal and Rolled Oats Cookies.**

One cup corn meal, 1 cup rolled oats, 1 cup molasses, 1 teaspoon salt, 1 cup sour milk, ½ cup fat, 1 teaspoon soda, 1 cup buckwheat flour, ½ teaspoon nutmeg, ¼ teaspoon ginger.

Heat the corn meal, the rolled oats, the molasses, the salt, and the milk together, stirring the mixture constantly until it becomes a thick paste. Remove it from the fire, and add the fat and the sifted soda, flour and spices. Allow the mixture to stand until it is cold. Roll it thin, cut it with a small cutter and bake the cookies in a moderately hot oven.

**Salmon Salad.**

Flake remnants of cold boiled salmon. Mix with French mayonnaise or cream dressing. Arrange on nests of lettuce leaves. Garnish with the yolk of a hard boiled egg forced through a potato ricer, and white of egg cut in strips.

**Delmonico Potatoes.**

To creamed potatoes add 1-3 cup mild cheese, grated, arranging potatoes and cheese in alternate layers in a baking dish. Cover with buttered crumbs and bake until the crumbs are brown.

**Bean Muffins.**

Two eggs, well beaten, 1 cup cold boiled bean pulp; ¾ cup milk, 4 teaspoons baking powder, 1 teaspoon salt, 1 cup barley flour, 1 cup corn flour, 2 tablespoons melted butter.

Combine the ingredients in the order in which they are given, sifting together the dry ingredients. Bake the muffins in greased muffin pans for about 25 minutes. Since the moisture of the bean pulp may vary, more or less milk may be needed. The batter should be somewhat stiffer than the ordinary wheat flour muffin batter.

Recipes for any of the dishes in these menus which cannot be found in cook books may be had by writing to the Department of Home Economics, State College of Agriculture, Ithaca, N. Y.

**Labor Everywhere Welcome.**

I hear therefore with joy whatever is beginning to be said of the dignity and necessity of labor to every citizen. There is virtue yet in the hoe and the spade for the learned as well as the unlearned hands. And labor is everywhere welcome; always we are invited to work.—Emerson.

**Taking Out Ink Stains.**

It may not be generally known that it is quite easy to take out ink stains with common soda. Damp the stain with cold water and then cover it with soda. Leave it for about an hour, till the stain completely disappears. It does not leave a mark after.

# JOY BROTHERS WERE ACQUITTED

**The West Shore Authorities Made No Appearance in Police Court Against Them Today—Beat His Board Bill.**

The Joy brothers, Chester and Ira, who were arrested the other day by Sergeant Phinney on a warrant securder by Detective Otto Lange of the West Shore railroad, were arraigned for trial in police court this morning. They were represented by Frank W. Brooks. There was no appearance made against them and Judge Schirick granted the motion of Mr. Brooks that they be acquitted and discharged. The brothers were accused of stealing wheat from the freight car on the West Shore tracks. From remarks let drop by Amos Van Eteen, who appeared at the hearing Wednesdaay in behalf of the railroad it is thought that the railroad authorities will take the matter up with the federal government. The Joy brothers when first arrested denied they were guilty and entered a plea to that effect.

Harry Barnhart was arrested Wednesday by Sergeant Phinney on a warrant secured by Andrew Kohl of the City Hotel, on Main street, charging Barnhardt with defrauding him of a board bill amounting to $14. This morning in police court the case was adjourned to give Barnhart an opportunity of securing the amount of the money due Mr. Kohl.

# LUCKEY, PLATT & CO.

*THE FURNITURE SALE THAT BRINGS THE GOODS THAT PEOPLE WANT WILL ALWAYS BE THE BEST SALE FOR THE PEOPLE.*

If any proof of this statement were needed, it is supplied by the August Economist Sale which we are now holding. It is undoubtedly the sale that brings the goods that people want, and it brings them in the greatest quantities by far and at the most reliable savings. It is well known in the furniture trade that furniture must be first-class to be admitted to the Luckey, Platt & Company's store. Hundreds of manufacturers in this country know that this store has absolutely no use for any kind of furniture that will not uphold the name of the store for quality and reliability. There is no need to dwell further upon that point.

But anybody who needs furniture to any extent, from footstool to a complete outfit for a home, will be well pleased with this stock from which to make a selection.

There are thousands of dollars worth of stock in this sale backed up by our desire for 100 per cent satisfaction in pleasing our customers.

### THOMAS CAR DITCHED.

**When Another Car Rammed It Sunday.**

Sunday afternoon a Ford car in which Mr. and Mrs. Herbert Thomas, and Mr. and Mrs. Arthur Thomas and children of Kingston, were riding, was sideswiped by a large car owned by an Irvington, N. J., man, and the Ford was thrown over into the ditch. The mishap occurred at West Camp, near the Philip Moore place, and the axle and wishbone of the Ford was wrecked. One of the Thomas children was thrown against the windshield and had his head cut open, the rest of the car's occupants escaping injury.—Catskill Mail.

### PAINTER IS HURT.

**Harvey Hornbeck Falls From Ladder and Injures Back.**

While painting a house at 267 Washington avenue, Harvey Hornbeck, of Prospect street, fell from a ladder late Wednesday afternoon and suffered injuries to his back and hip. He was taken to his home in a taxicab. Dr. H. A. Follette was called. Mr. Hornbeck will be confined to his home for several days. No bones were broken. He fell about 25 feet.

# RECLASSIFICATION OF REGISTRANTS

A number of Division 2 registrants reported today at the court house to be examined relative to their reclassification as recommended by the legal advisory board. Registrants before being reclassified are given a hearing and the circumstances in each individual case are thoroughly investigated by the local board before any change is made.

### Allied Russ Councils.

By Telegraph to The Freeman.

Washington, Aug. 22.—Two Allied councils have been established for the co-ordinating of Allies efforts in Russia, it was learned here this afternoon. One, composed of diplomatic representatives at Archangel, has named American Ambassador Francis as its presiding officer. The other is a military counsel, with headquarters at Vladivostok.

### Senate Thanks Army and Navy.

By Telegraph to The Freeman.

Washington, Aug. 22.—By a rising vote the senate this afternoon unanimously passed a resolution extending the thanks of the American congress and people to soldiers and sailors of the United States for the gallan service rendered thus far in the war. The senate remained standing for one minute.

### KINGSTON POINT PARK

**Has Proved Profitable Under Management of City.**

The old saying that a private corporation can operate something more economically and more efficiently than a city does not always prove true. Last spring the board of public works took a lease of Kingston Point Park for the summer season with an option of renewing the lease for a term of five years. Mayor Canfield had favored the proposition for some time and brought the attention of the matter to the board last year which culminated into the making of the lease this year.

Last year, when conducted by the Kingston Consolidated Trolley Company, Kingston Point Park was conducted at a loss. This year it is being conducted by the board at a profit. The figures showing the revenue and expenditures to August 1st and also to August 21st were submitted to the board at its meeting yesterday and disclosed that the receipts up to August 1st exceeded the expenditures by nearly $500. From August first to yesterday the net receipts had increased several hundred dollars more. Figures for the same respective periods of last year were also submitted, showing an operating loss last year where there is an operating gain this year.

As the citizens know, the board has provided bands concerts this year which has drawn more people to enjoy this beauty spot of the Hudson. The swings and slides have also increased the attendance of children which has tended to increase the patronage of the merry-go-round which has run several hundred dollars ahead of last year. The boats have produced about the same revenue which is considered very favorable considering the fact that over one thousand of our boys left us temporarily to serve Uncle Sam. The concessions have also paid more money.

Notwithstanding the higher wages and cost of everything, the board did not increase the cost of rides on the merry-go-round or for the use of boats. Yet, as above stated, it is now financially ahead on its operation.

### YOUNG LADY'S POEM.

**Apropos of Tablet Unveiling at Armory Tonight.**

Editor Kingston Daily Freeman
Dear Sir:

I am herewith enclosing a poem I think will fit very well, for the unveiling of our heroes' tablet which will occur this evening at the armory, composed by Miss Florence Kleine, 17 years of age, residing at 40 West O'Reilly street.

OUR HEROES.

Oh let us look with fearless eyes
Beyond the horrors of this worldly strife
And know that from it there shall rise
The dawn of truer life.

Rejoice though anguish rends your heart
That God has given us the priceless dower
To live to witness and yes to take part
In Freedom's struggling hour.

Mourn not, then for these heroes
Who for the cause have died
They fought to abolish tyrany
That Liberty and Peace throughout the world may abide.

They gave all that they had for their country.
Yes—their own young lives
Leaving homes, friends and sweethearts
Their mothers, fathers and wives.

Some of them were sailors
With hearts so loyal and true
Heroes of Uncle Sam's Navy
They died for me and for you.

The rest of them were soldiers
With baronets and gun
Who went to square our debt with France
To struggle with the Hun.

Our hearts may all be breaking
Wealthy and poor are equal today
We must be brave for the other hearts aching
Our boys, our heroes have shown us the way.

Many of them are now in the trenches
Away on the other side of the world
Amid the shell and the gasses vile stenches
Though their enemies hate, towards death they are hurled.

Humanity is what they're fighting for
For peace throughout the world
It will come and the flags which the Allies bear
O'er the streets of Berlin will be unfurled.

We must all trust our Heavenly Father
He will lead us safely through
He'll be with the boys in battle
Who are fighting for the Red, White and Blue.

### ACCORD.

Accord, Aug. 22.—Eli Sahler and brother, Herbert, of Richmond, Mass. spent Sunday with their parents, Mr. and Mrs. J. D. Sahler.

Mrs. Herman Knickel and children spent Sunday with relatives at Whitfield.

Mr. and Mrs. Harry Coddington have been visiting Mrs. Gertrude Coddington.

D. E. Schoonmaker and A. L. Sahler motored to Monticello Monday.

Ralph Van Wagenen of Alligerville was in town Tuesday.

Some farmerettes from the camp at Stone Ridge are pulling onions for Gross B. Schoonmaker.

Ferris Floss and family of New New Haven, Conn., have been spending several days with Mr. and Mrs. John H. Silkworth.

George Coddington and family and Mr. and Mrs. Oscar Coddington spent Monday and Tuesday at Torrington, Conn., traveling by auto.

W. H. Rose left his rig near J. Van Kleek's at Kerbonkson Tuesday afternoon. When he was ready to leave he found that both mule and wagon had disappeared. With the assistance of two Kerbonkson constables the rig was located shortly before midnight in another man's possession.

The Ellenville Drum Corps has been secured to furnish music at the Millbrook picnic on August 28.

Camp meetings will be held in the Millbrook grove, beginning with Sept. 4, meetings will be held every evening for two weeks. On Sundays, both afternoon and evening, meetings will be held.

Let every one in Rochester town and neighboring towns help to make the town fair at the Millbrook grove on August 28, a real success by bringing all the vegetables, grain, fruit, canned fruit, food, etc., they possibly can for exhibition.

# LARGE SALARIES TO BE CUT NEXT SEASON

## Baseball Stars Won't Get Huge Amounts for Services.

**Fat Wartime Contracts Will Be Visible No More and Preference Will Be Given to Players Returning From War.**

There will be a house cleaning in baseball next spring, if the game comes back then, but it may not be the kind of house cleaning that Ban Johnson prophesied. The present national commission may or may not be put in power again. There may be or may not be a new head to that commission; there may be a new leader of the National league, and there may even be a new leader of the American league. All these things are possible, but what is most probable of all is a reorganization and a regrading of salaries.

The fat wartime contracts will be visible no more. Valiant athletes who drew from $5,000 to $8,000 while their clubs lost heavy, money will be offered from $2,500 to $4,000. If there is any preference in awarding the big money, it will be shown to men returning from the war, as it is felt that they could not help their departure, and gave up large incomes cheerfully to serve the nation.

Superfluous agents, extra financial managers, etc., will be lost to view. Baseball will simply start in again and will try to rebuild its shattered fortunes along sane and economic lines. This comes unofficially, but none the less correctly, through the office of the national commission.

Agents of the Arizona Copper league, which comprises the six Arizona cities of Bisbee, Prescott, Phoenix, Oakland, Jerome and Tombstone, are on their way east to grab big league players. Forty Pacific coast men have gone in with these six clubs, but the promoters want major leaguers, too. Their offer is blunt and direct:

Six dollars a day straight wages to copper miners, and the ball players will have to earn the money, working eight honest hours a day; $8 extra to ball players with games Saturday and Sunday.

The jumps are mostly by automobile, and the population has gone wild over the game.

## THIS OLD TIMER WOULD PRAY

**Mickey Welch, Once Famous Pitcher With Giants, Relied on Religion in Tight Pinches.**

Veteran fans will recall that famous, old-time New York Giant pitcher by the name of Michael (Mickey) Welch. The New York roster shows that he twirled for that noted club from the years 1883 to 1892, inclusive.

Welch was a religious man. We have this on the word of a man who caught him on a club in New York state before Mickey reached the big brush. Here's the way this catcher, whose name is Wilson, tells of his experience with Welch:

"We'd be in a tight hole," says this former catcher, "and I'd see Mickey's lips move. I'd immediately set myself for the shock, because I knew he was going to send across the swiftest he had in his collection. And when I say swift I mean one that would take a fellow off his pins if he wasn't ready. Mickey always said a prayer when in a tight place."

## O'MARA MAKING GOOD AT FAR CORNER OF DIAMOND.

Ollie O'Mara, the little blond infielder of the Robins, is covering his position at the far corner of the diamond as though he had always been a third baseman.

When Chuck Ward was secured from the Pirates last winter Manager Robbie ceased to worry about a guardian for the sack, but when Ward was called to the colors Uncle Robbie decided to give O'Mara a trial at that important position.

Although he had never before played third base, Ollie jumped in and has proved to be a success in the field. O'Mara's only weakness is batting, but there is hope he will soon show improvement in that department also.

### Mollwitz Head-First Slider.

First Baseman Fred Mollwitz of the Pirates is one of the few players in the major leagues who employs a head-first slide to base.

"DERE MABLE"

REVIEW IN RIME OF THE "LOVE LETTERS OF A ROOKIE" BY E. STREETER, (STOKES)

BY MABLE M'ELLIOTT.

Soldier-made stories are startingly numerous,
Some of them ponderous, some of them light—
Here is a book that's deliciously humorous,
Being the letters of one jolly wight,
Fearful and wonderful,
Braggingly blunderful
Missives that put the blue devils to flight.

Queer little pictures the artist has made for it—
(Begging his pardon, but really, it's true.
Me for the truth, sir, although I be flayed for it.)—
Pix that will hand you a chuckle or two.
Grin or guffaw at them,
Loudly haw-haw at them—
Don't miss "Dere Mable" whatever you do!

# ROAD BUILDING

## HIGHWAYS TO HELP US WIN

### No More Important Factor In Winning War Than Good Roads—Interest Shown In Southwest.

It would be a difficult matter to estimate the advantages of state and interstate highways. Public highways are now being located and built in most states of the Southwest and the interest these have contributed to good roads is of immense benefit to local communities, counties and states. The highways, it is understood, will connect states, counties in states and form a

Good Road In Southwest.

mutual link of communication that will redound to great commercial and social benefits.

The Southwest should be a country of roads. Its vast resources of crops, live stock, timber, petroleum, coal and other necessities for winning the war should be placed at the disposition of the people. With the interest that is now being manifested it would seem that road building will proceed as fast as materials and men can be had.

It is hoped that every community in the Southwest will take an interest in road improvement and lend assistance. There is no more important factor in winning the war than good roads.—Farm and Ranch.

## HIGHWAY BUILDING FOR WAR

### Roads Back of English Army Built and Cared for Under Direction of General Maybury.

The roads back of the English army are being built and cared for under the direction of Gen. H. P. Maybury, who was one of the English county engineers and was afterward one of the engineers on the road board in England.

Back of one of the British armies a lieutenant colonel, one of General Maybury's subordinates, has had charge of the roads for two years, and has had from 1,000 to 12,000 men working on them constantly. Twenty-five or 30 per cent of these have been German prisoners.

In order to keep the roads merely passable they have had to use up to 2,000 tons of material a day. Broken stone costs $7.50 a ton. It isn't a question of cost, however; it is a question of keeping the traffic going.

## DAY OF TOLL ROADS PASSING

### Old York-Philadelphia Road Taken Over by State of Pennsylvania—Joy for Drivers.

The day of the toll is rapidly passing, a recent proof of which has appeared in the taking over of the old York-Pennsylvania road by the state of Pennsylvania. Through this state action a number of toll gates have automatically disappeared, greatly to the joy of all drivers using this section of the highway. As early as 1693, the colonial inhabitants living along this route, appealed to the governor for a good road to Philadelphia, and secured the building of a log and plank highway, which was regarded by them as a wonderful specimen of improved road. This section of road is now a part of the Lincoln highway.

LAWS OF NEW YORK.—By Authority.
CHAP. 506

AN ACT to authorize the commissioners of the land office to grant and release to the city of New York certain lands under water in the Atlantic ocean in the boroughs of Brooklyn and Queens to provide for the protection of adjacent uplands, the improvement of such lands under water and uplands and the acquisition of property for any such purpose, to such city and to prescribe the method for defraying the cost

Became a law May 7, 1918, with the approval of the Governor. Passed by a two-thirds vote.

Accepted by the City.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. To the end that the city of New York may provide for the improvement of public and private beaches on the Atlantic ocean the commissioners of the land office may, in their discretion and upon such terms and conditions as may be agreed upon by such commissioners and such city, acting by its board of commissioners of the sinking fund, grant and release to the city of New York all the right, title and interest of the state of New York in and to all the lands and lands under water in the Atlantic ocean between the original line of high water and the bulkhead line or lines which may be established under and pursuant to the provisions of this act, from the westernmost point of Coney Island to the westerly boundary line of Nassau county.

§ 2. The city of New York, acting by its board of estimate and apportionment, is authorized and empowered to lay out on the map or plan of said city along the ocean front of the boroughs of Brooklyn and Queens, a bulkhead line or lines at a distance not to exceed five hundred feet outshore of the existing high water line, and also to lay out on said map or plan along said ocean front groynes, jetties and breakwaters, either interior or exterior to such bulkhead line or lines as said board may deem necessary for the preservation of the beaches and the protection of the uplands adjacent thereto from erosion, and also to lay out on said map or plan along said ocean front, interior to said bulkhead line or lines, streets, parks, avenues, boulevards, promenades, walks and boardwalks.

§ 3. The city of New York, by its board of estimate and apportionment, is hereby authorized and empowered to acquire from time to time, either by purchase or condemnation, in the manner prescribed by title four of chapter seventeen of the Greater New York charter, the title to any uplands, filled in lands, lands under water, estates, rights, easements, interests or privileges not owned by said city, required for such streets, parks, avenues, boulevards, promenades, walks and boardwalks, and to assess the cost thereof pursuant to said provisions. The sums of money awarded for the acquisition of such title shall be paid out of the fund for street and park openings and the assessments therefor, when collected, shall be paid into such fund

§ 4. The board of estimate and apportionment of the city of New York may authorize the commissioner of docks of the city of New York to erect and construct bulkheads on the bulkhead line or lines established pursuant to the provisions of this act, and to fill in behind the same and to erect and construct groynes, jetties and breakwaters laid out pursuant to the provisions of this act, and the work of such construction shall be performed in the manner provided by section eight hundred and twenty-one of the Greater New York charter for the construction of waterfront improvements. Said board of estimate and apportionment may also authorize the president of the borough in which such streets, parks, avenues, boulevards, promenades, walks and boardwalks or any part of either may be situated, to enter into a contract or contracts for regulating, grading, paving, constructing or otherwise improving such streets, parks, avenues, boulevards, promenades, walks and boardwalks, such contract or contracts to be let in accordance with the provisions of the Greater New York charter for letting contracts for improving streets. Such bulkheads, groynes, jetties, breakwaters, streets, parks, avenues, boulevards, promenades, walks and boardwalks shall, when constructed, be under the jurisdiction of the president of the borough in which the same may be situated and such borough president as shall have jurisdiction thereof shall also have charge of the care and maintenance thereof

§ 5. The construction of such bulkheads, groynes, jetties, breakwaters, streets, parks, avenues, boulevards, promenades, walks and boardwalks and the filling in of lands under water shall be considered a local improvement within the meaning of the Greater New York charter, and the cost thereof or such portion of the cost thereof as the board of estimate and apportionment of such city shall determine in each case, may be assessed by the board of assessors of such city upon property which said board of assessors shall deem to be benefited pursuant to the provisions of title two of chapter seventeen of the Greater New York charter. The moneys collected from the assessments levied for the construction of said bulkheads, groynes, jetties, breakwaters, streets, parks, avenues, boulevards, promenades, walks and boardwalks and the filling in of lands under water shall be paid into the street improvement fund. The sinking fund for the redemption of the city debt shall be reimbursed out of the street improvement fund for the expenditures made by the commissioner of docks for the construction of such bulkheads, groynes, jetties, breakwaters and the filling in of lands under water. So far as applicable, all of the provisions of title five of chapter seventeen of the Greater New York charter, providing for the collection of special assessments and for the sale of the lands assessed for the nonpayment thereof, shall be authority for the collection of any assessments levied pursuant to the provisions of this act

§ 6. The provisions of any acts or parts of acts, including the Greater New York charter, which are inconsistent with this act and in so far only as they are inconsistent with this act, shall have no application to the rights, powers, grants and obligations authorized prescribed or created by this act or to the proceedings to be had or taken under the authority of this act.

§ 7. This act shall take effect immediately

LAWS OF NEW YORK.—By Authority.
CHAP. 503.

AN ACT to amend chapter five hundred and nine of the laws of nineteen hundred and sixteen, entitled "An act to grant and release to the city of New York certain lands under water of Eastchester creek or Hutchinson's river, Eastchester bay and creeks emptying into the same and providing for the improvement thereof," in relation to authorizing the commissioners of the sinking fund of such city to apply for such grant and to agree upon terms and conditions thereof.

Became a law May 7, 1918, with the approval of the Governor. Passed by a two-thirds vote.

Accepted by the City.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section one of chapter five hundred and nine of the laws of nineteen hundred and sixteen, entitled "An act to grant and release to the city of New York certain lands under water of Eastchester creek or Hutchinson's river, Eastchester bay and creeks emptying into the same and providing for the improvement thereof," is hereby amended so as to read as follows:

§ 1. To the end that the city of New York may co-operate with the federal government in the improvement of Eastchester creek or Hutchinson's river, Eastchester bay and the creeks emptying into the same, intended for the advancement of the commercial interests of the nation, state and city, the commissioners of the land office are hereby authorized in their discretion, and upon application by the commissioners of the sinking fund of the city of New York such terms and conditions as may be agreed upon, with such commissioners of the sinking fund to grant and release to the city of New York such right, title and interest as the state of New York may have in and to the lands under water between the pierhead line, or the pierhead and bulkhead line established by the secretary of war along the westerly side of Eastchester creek or Hutchinson's river and Eastchester bay and the high water line along the shores of said creek or river and bay, together with all the right, title and interest the state of New York may have in and to the lands under water of all creeks emptying into said creek or river and bay on the westerly side thereof.

CHAP. 540.

AN ACT to amend the highway law, in relation to lights on motor vehicles.

Became a law May 8, 1918, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section two hundred and eighty-six of chapter thirty of the laws of nineteen hundred and nine, entitled "An act relating to highways, constituting chapter twenty-five of the consolidated laws," as added by chapter three hundred and seventy-four of the laws of nineteen hundred and ten and amended by chapter seven hundred and eighty-five of the laws of nineteen hundred and seventeen, is hereby amended to read as follows:

§ 286. Signaling and other devices; signals, rules of the road. 1. Every motor vehicle, operated or driven upon the public highways of the state, shall be provided with adequate brakes in good working order and sufficient to control such vehicle at all times when the same is in use, and a suitable and adequate horn or other device for signaling.

2. Every motor vehicle, driven or operated upon the public highways of the state during the period from one-half hour after sunset to one-half hour before sunrise, shall display when running at least two lighted lamps on the front, one on each side, of approximately equal power, not exceeding twenty-four candle power, unless a greater candle power shall be prescribed as provided by subdivision six, and one lighted lamp on the rear of such vehicle, which shall also display a red light visible from the rear. The rays of such rear light shall shine upon the number plate carried on the rear of such vehicle in such manner as to render the numerals thereon legible for at least fifty feet in the direction from which the motor vehicle is proceeding. The front lights shall be so arranged, adjusted and operated, as to avoid dangerous glare or dazzle, and so that no dangerous or dazzling light, projected to the left of the axis of the vehicle when measured seventy-five feet or more ahead of the lamps, shall rise above forty-two inches on the level surface on which the vehicle stands. They shall also give sufficient side illumination to reveal any person, vehicle or substantial object ten feet to both sides of said vehicle, at a point ten feet ahead of the lamps. If, in addition to headlights, any such motor vehicle is equipped with any auxiliary light, projecting device or devices, other than the rear light, such auxiliary lights shall be subject to all the restrictions of this section.

3. Except as otherwise provided in this section, such front lights shall be visible at least two hundred and fifty feet in the direction in which the motor vehicle is proceeding, and, when the vehicle is proceeding on a street or highway not so lighted as to reveal any person, vehicle or substantial object on such street or highway straight ahead of such motor vehicle for a distance of at least two hundred feet, such front lights shall be sufficient to reveal any person, vehicle or substantial object on the road straight ahead of such motor vehicle for a distance of at least two hundred feet. This subdivision shall not apply to the motor trucks described in subdivision four of this section

4. Such front lights on motor trucks of two tons carrying capacity or over, which are so governed or mechanically organized or controlled that they cannot exceed a speed of fifteen miles per hour, shall be visible at least two hundred feet, in the direction in which the motor vehicle is proceeding, and when the vehicle is proceeding on a street or highway not so lighted as to reveal any person, vehicle or substantial object on the street or highway straight ahead of such motor vehicle for a distance of at least two hundred feet, such front lights shall be sufficient to reveal any person, vehicle or substantial object on the road straight ahead for a distance of seventy-five feet.

5. Motor vehicles when standing upon the street or highway must display two lights in front and a red light in the rear which shall be visible from a point at least one hundred feet distant, provided, however, upon the end of the motor vehicle against the curb and where such lights are dispensed with by law or ordinance no light is required.

6. Any person may submit to the secretary of state a device for controlling the front lights of motor vehicles so that they shall comply with the provisions of this section while the vehicle is proceeding, together with an application that such device be tested as prescribed by this section. Such applicant shall pay to the secretary of state a fee of fifty dollars. Thereupon the secretary of state shall upon notice to the manufacturer thereof, submit such device upon such uniform specifications as he may from time to time prescribe and promulgate to the United States bureau of standards or to any duly qualified testing laboratory not interested, directly or indirectly, in any lamps or headlighting apparatus or to a similarly disinterested qualified technical expert or experts from the physical laboratory of a university or technical school within the state of New York, under the jurisdiction of the university of the state of New York, with a request that it be tested as to its compliance with the provisions of this section, and the secretary of state may also submit such device to such practical road test as he deems proper. Upon notice from such bureau, laboratory or technical expert or experts that such test has been made and that such device when properly applied substantially complies with the provisions of this section, and suggesting the maximum candle power to be used therewith, the secretary of state may issue a certificate to the applicant describing the device and certifying that such test has been made and that the device when so applied complies with the provisions of this section and prescribing the said maximum candle power to be used therewith. The expense of such test shall be paid from the fee collected from the applicants, and the balance of such fee, if any, shall be paid into the state treasury.

7. Any person, firm or corporation who may be dissatisfied with the findings of such testing laboratory, expert or experts, shall have the right of appeal to the United States bureau of standards upon payment of the same fee hereinabove prescribed whose decision shall be final.

8. A person operating or driving a motor vehicle shall, on signal by raising the hand, from a person riding, leading or driving a horse or horses or other draft animals, bring such motor vehicle immediately to a stop, and, if traveling in the opposite direction, remain stationary so long as may be reasonable to allow such horse or animal to pass, and, if traveling in the same direction, use reasonable caution in thereafter passing such horse or animal; provided that, in case such horse or animal appears badly frightened or the person operating such motor vehicle is so signaled to do, such person shall cause the motor of such vehicle to cease running so long as shall be reasonably necessary to prevent accident and insure the safety of others. In approaching or passing a car of a street railway which has been stopped to allow passengers to alight or embark, the operator of every motor vehicle shall slow down and if it be necessary for the safety of the public he shall bring said vehicle to a full stop. Upon approaching a pedestrian who is upon the traveled part of any highway and not upon a sidewalk, and upon approaching an intersecting highway or a curve or a corner in a highway where the operator's view is obstructed, every person operating a motor vehicle shall slow down and give a timely signal with his bell, horn or other device for signaling.

9. Whenever a person operating a motor vehicle shall meet on a public highway any other person riding or driving a horse or horses or other draft animals or any other vehicle, the person so operating such motor vehicle shall seasonably turn the same to the right of the center of such highway so as to pass without interference. Any such person so operating a motor vehicle shall, on overtaking any such horse, draft animal or other vehicle, pass on the left side thereof, and the rider or driver of such horse, draft animal or other vehicle shall, as soon as practicable, turn to the right so as to allow free passage on the left. Any such person so operating a motor vehicle shall, at the intersection of public highways, keep to the right of the intersection of the centers of such highways when turning to the right and pass to the right of such intersection when turning to the left.

§ 2. This act shall take effect immediately.

LAWS OF NEW YORK.—By Authority.
CHAP. 543.

AN ACT to amend the public lands law, in relation to the establishment of a state reservation at Lake Mohansic, in the town of Yorktown, Westchester county, creating a commission for the management thereof, and making an appropriation for the purposes of this act.

Became a law May 8, 1918, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Article twelve of chapter fifty of the laws of nineteen hundred and nine, entitled "An act relating to the public lands, constituting chapter forty-six of the consolidated laws," as renumbered by chapter seven hundred and thirty-one of the laws of nineteen hundred and eleven and chapter one hundred and sixty-seven of the laws of nineteen hundred and thirteen, is hereby renumbered article thirteen thereof, and a new article twelve inserted, to read as follows:

ARTICLE 12.

State Reservation at Mohansic Lake.

Section 120. Transfer of lands, jurisdiction and control.
121. Commissioners.
122. Officers, treasurer's undertaking.
123. Powers and duties.
124. Purpose of reservation.
125. Gifts of property for purposes of reservation.
126. Annual report; quarterly accounts.
127. Payment of moneys appropriated.

§ 120. Transfer of lands, jurisdiction and control. The lands of the state in the town of Yorktown, Westchester county, heretofore acquired for the Mohansic State Hospital, and the lands of the state in such town, heretofore acquired for the New York State Training School for Boys, with all the appurtenances thereto (including the railroad and railroad right of way and siding shall hereafter be known as the Mohansic Lake Reservation, and jurisdiction and control thereof is hereby transferred to the board of commissioners of the Mohansic Lake Reservation, established by this article.

§ 121. Commissioners. There shall be a board of commissioners of the Mohansic Lake Reservation, consisting of five persons appointed by the governor by and with the advice and consent of the senate, to hold office for a term of five years each; but the original appointments shall be made in such manner that the term of one commissioner shall expire annually thereafter. No member of such board shall receive any compensation for his services as commissioner, but shall be entitled to actual and necessary expenses in performing the duties of his office.

§ 122. Officers; treasurer's undertaking. The commissioners shall select from among their number a president, and shall appoint some person to act as secretary and treasurer. The treasurer shall give an official undertaking in such sum as the board shall direct.

§ 123. Powers and duties. Such board of commissioners shall:

1. Have the control and management of the Mohansic Lake Reservation;

2. Lay out, manage and maintain such reservation, and make and enforce rules and regulations necessary to effect the purposes thereof not inconsistent with law;

3. Employ such persons as may be needed to care for such reservation, and fix their compensation within the amounts appropriated therefor;

4. Have power to authorize under regulations of the board, the establishment and maintenance on the reservation of places for the service of food and drink and for that purpose to improve present buildings or to erect new buildings on the former Mohansic site when appropriations are made by the legislature or gifts are made for such purposes.

5. Have power to lay out grounds or places for amusement and recreation purposes and to institute and maintain same with appropriations granted or gifts made therefor.

6. Have power to grant to the "managers of the society for the reformation of juvenile delinquents in the city of New York," the right to use all or any part of such reservation lying south of Lake Mohansic for agricultural purposes by means of the labor of the inmates of the institution of such society now located on Randall's island; but such right shall only be granted upon the express condition that not more than fifty individuals, including inmates, employees, guards or other persons, shall be lodged on such land at any one time;

7. Have power to complete the buildings now partially constructed upon such part of such reservation for the following uses and no other: the three stone structures being erected for the housing of sixteen inmates in each building, situate upon the crown of the hill, close to the Mohansic lake shall be finished and used for manual training work only; the four stone houses now partially completed situate upon the property near the uncompleted power plant shall be completed for the housing of the boys and employees not exceeding fifty in number, in accordance with the provisions of subdivision six, the building partially completed and erected for the purpose of a power plant shall be completed for use as a dairy building;

8. Have power to erect and maintain upon the reservation lying south of Lake Mohansic a sewage disposal plant, plans for which shall first be approved by the state commissioner of health. The effluent from such plant shall not be discharged directly, or in any manner except by underground percolation through at least five hundred feet of soil, into any lake, stream or other water course tributary to the water supply of the city of New York.

§ 124. Purpose of reservation. The reservation at Mohansic lake shall forever be reserved by the state for the purpose of preserving it in its natural condition and kept open and free of access for all mankind without fee, charge or expense to any person for entering upon or passing to or from any part thereof.

§ 125. Gifts of property for purpose of reservation. Real and personal property may be granted, conveyed, bequeathed or devised to and accepted by the state in aid of the purposes of such reservation or to increase the same and on such trusts and conditions as may be prescribed by the grantors or devisors thereof, providing the same be accepted and agreed to in writing by such commissioners. All such property shall be managed and controlled by the commissioners and the rents, issues and profits thereof shall be turned into the state treasury, except when such rents, issues and profits are specifically devised or bequeathed to be used for specific and definite purpose.

§ 126. Annual report; quarterly accounts. The commissioners shall make an annual report of their proceedings to the legislature in the month of January, with a detailed statement of all their receipts and expenditures for the preceding fiscal year, and an estimate of the work necessary to be done, and the expense of maintaining the reservation for the ensuing fiscal year, with such recommendations as they shall see fit. They shall quarterly, on the first days of January, April, July and October of each year, send to the comptroller a detailed and itemized account of all receipts and expenditures, with sub-vouchers for the items thereof for the preceding quarter, and such accounts shall be verified by the commissioners or their treasurer.

§ 127. Payment of moneys appropriated. Moneys appropriated for caring for and maintaining such reservation, and carrying out the provisions of this article, shall be paid to the order of the treasurer of the commission by the state treasurer, upon the warrant of the comptroller. No warrant shall be issued until the amounts claimed have been audited and allowed by the comptroller, who is hereby authorized to determine the same, except that on the requisition of the treasurer of such commission, the comptroller may advance out of the sum appropriated whatever moneys he deems necessary for the proper carrying out of the provisions of this article.

§ 2. The Mohansic State Hospital and the board of managers thereof and the New York State Training School for Boys and the board of managers thereof are hereby abolished, and the terms of office of the members of such boards shall expire, and the terms, duties and employment of all officers and employees of such hospital and of such school shall cease and determine when this act takes effect. The board of managers for the Mohansic State Hospital and the board of managers of the New York State Training School for Boys shall each, as soon as practicable, after this act takes effect turn over to the commission hereby created all books, papers and personal property belonging to such board or under its control, respectively.

§ 3. Appropriations heretofore made for the construction of seven cottages for the New York State Training School for Boys shall be available for the completion of such work, but shall be expended under the direction of the commission hereby created and be payable by the state treasurer on the order of such commission, upon the warrant of the comptroller.

§ 4. Subdivision fourteen of section forty of chapter thirty-two of the laws of nineteen hundred and nine, entitled "An act in relation to the finance, constituting chapter twenty-seven of the consolidated laws," such subdivision having been added by chapter fifty-seven of the laws of nineteen hundred and ten, and such section amended by chapters three hundred and ten of the laws of nineteen hundred and ten and one hundred and twenty-one of the laws of nineteen hundred and twelve, is hereby repealed

§ 5. Section forty-a of such chapter, as added by chapter fifty-seven of the laws of nineteen hundred and ten, is hereby repealed.

§ 6. Chapters seven hundred and fourteen of the laws of nineteen hundred and four, six hundred and seventeen of the laws of nineteen hundred and six, five hundred and twenty-four of the laws of nineteen hundred and seven, and six hundred and thirty-nine of the laws of nineteen hundred and eleven, and all acts amendatory of such acts, are hereby repealed.

§ 7. The sum of three thousand dollars ($3,000), or so much thereof as may be necessary, is hereby appropriated for the purposes of this act out of any money in the treasury not otherwise appropriated.

§ 8. This act shall take effect immediately.

CHAP 544.

AN ACT to amend the decedent estate law and the personal property law, in relation to the investment of trust funds in parts of mortgages held by trust companies and title guaranty corporations.

Became a law May 8, 1918, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section one hundred and eleven of chapter eighteen of the laws of nineteen hundred and nine, entitled "An act relating to estates of deceased persons, constituting chapter thirteen of the consolidated laws," is hereby amended to read as follows:

§ 111. Investment of trust funds. An executor, administrator, trustee or other person holding trust funds for investment may invest the same in the same kind of securities as those in which savings banks of this state are by law authorized to invest the money deposited therein, and the income derived therefrom, and in bonds and mortgages on unincumbered real property in this state worth fifty per centum more than the amount loaned thereon, and in shares or parts of such bonds and mortgages, provided that any share or part of such bond and mortgage so held shall not be subordinate to any other shares thereof and shall not be subject to any prior interest therein, and provided further that bonds and mortgages in parts of which any fiduciary may invest trust funds together with any guaranties of payment, insurance policies and other istruments and evidences of title relating thereto shall be held for the benefit of such fiduciary and of any other persons interested in such bonds and mortgages by a trust company or title guaranty corporation organized under the laws of this state, and that a certificate setting forth that such corporation holds such instruments for the benefit of such fiduciary and of any other persons who may be interested in such bond and mortgage among whom the corporation holding such instruments may be included, be executed by such corporation and delivered to each person who becomes interested in such bond and mortgage. Every corporation issuing any such certificate shall keep a record in proper books of account of all certificates issued pursuant to the foregoing provisions. An executor, administrator, trustee or other person holding trust funds may require such personal bonds or guarantees of payment to accompany investments as may seem prudent, and all premiums paid on such guarantees may be charged to or paid out of income, providing that such charge or payment be not more than at the rate of one-half of one per centum per annum on the par value of such investments. But no trustee shall purchase securities hereunder from himself.

§ 2. Section twenty-one of chapter forty-five of the laws of nineteen hundred and nine, entitled "An act relating to personal property, constituting chapter forty-one of the consolidated laws," is hereby amended to read as follows:

§ 21. Investment of trust funds. A trustee or other person holding trust funds for investment may invest the same in the same kind of securities as those in which savings banks of this state are by law authorized to invest the money deposited therein, and the income derived therefrom, and in bonds and mortgages on unincumbered real property in this state worth fifty per centum more than the amount loaned thereon, and in shares or parts of such bonds and mortgages, provided that any share or part of such bond and mortgage so held shall not be subordinate to any other shares thereof and shall not be subject to any prior interest therein, and provided further that bonds and mortgages in parts of which any trustee may invest trust funds together with any guaranties of payment, insurance policies and other instruments and evidences of title relating thereto shall be held for the benefit of such trustee and of any other persons interested in such bonds and mortgages by a trust company or title guaranty corporation organized under the laws of this state and that a certificate setting forth that such corporation holds such instruments for the benefit of such trustee and of any other persons who may be interested in such bonds and mortgages among whom the corporation holding such instruments may be included, be executed by such trust company or title insurance corporation and delivered to each person who becomes interested in such bond and mortgage. Every corporation issuing any such certificate shall keep a record in proper books of account of all certificates issued pursuant to the foregoing provisions. A trustee or other person holding trust funds may require such personal bonds or guarantees of payment to accompany investments as may seem prudent, and all premiums paid on such guaranties may be charged to or paid out of income, providing that such charge or payment be not more than at the rate of one-half of one per centum per annum on the par value of such investments. But no trustee shall purchase securities hereunder from himself.

§ 3. This act shall take effect immediately.

### Comb Old Toilet Adjunct.

Combs have been used in the toilet since very ancient times. The Greek, the Egyptian and the Roman ladies used them to arrange and hold up their hair; even ladies among the Swiss lake-dwellers seem to have been familiar with them. Some of these were made of wood, some of bone, of horn or of ivory. Specimens have often been found in recent years.

# BOLSHEVIKI IS AT WAR WITH US

By Telegraph to The Freeman.

Washington, Aug. 22.—The Bolsheviki government has declared that a state of war exists between the United States and Russia and has lowered the flag over the American consulate, according to a dispatch from Vice Consul Imbrie, dated August 20, and received at the state department this afternoon.

The affairs of the consulate have been placed in the hands of the Norwegian government, the dispatch added.

There are about twenty Americans in Petrograd at the present time, said Imbrie, and they have been subjected to various indignities and warned to leave the city.

### LOCAL DEATH RECORD.

**Recent Deaths and Funerals of Persons in This Vicinity.**

Michael Gigionio, infant son of Joseph Gigionio, died at the residence of his parents Tuesday. The funeral was held Wednesday afternoon from St. Mary's Church. The interment was in St. Mary's cemetery.

Mrs. Josephine Winchell died in this city, Wednesday, August 21, 1918, aged 53 years. She is survived by two daughters, Mrs. Cleveland Pulver, of Walden, N. Y., Mrs. Charles S. Smith, of Chichester, N. Y., and two sons, Otis Winchell of Stony Creek, Conn., and Burton Winchell of Walden, N. Y.

John Tylec died Wednesday, aged 50 years. He is survived by two daughters, Anna of this city, and Sophia of Yonkers, and two sons, John of Yonkers, and Stephen of Poughkeepsie. The funeral will be held Friday morning at 8:30 o'clock from 140 Broadway and from the Church of the Immaculate Conception at 9 o'clock. The interment will be in Mt. Calvary cemetery.

James Malone died at his home, Morey Hill, Wednesday. He is survived by three sons, Michael, James and Patrick, of New York city, and two daughters, Mrs. John Callahan, of Sawkill, and Miss Julia at home. Mr. Malone was a member of the A. O. H., No. 4, Kingston division. The funeral will be held from the late residence on Saturday morning at 9:30 o'clock and from St. John's Church, at Bristol Hill, at 10 o'clock, where a requiem mass will be offered for the repose of his soul. The interment will be in the family plot in the Sawkill cemetery.

Mary Ann Allerton, widow of the late Dr. J. C. Norton, died this morning at her home, 43 Crown street, in her 92nd year. Born in Southeast, Putnam county, March 11, she was a daughter of the Rev. Reuben Allerton, and a direct descendent of Isaac Allerton, passenger in the Mayflower, and Maria Miller, his wife. She was married in 1860 to John C. Norton of Norton Hill, Greene county, and is survived by one daughter, Clara Norton Reed, and one nephew, Frank H. Allerton, of Elmira, N. Y. Although suffering from the physical infirmities due to age, Mrs. Norton was, mentally, bright and cheery up to the last. She was apparently recovering from a severe illness of several weeks' duration when death came suddenly. Mrs. Norton was so widely known in this city for so many years that the news of her death will be a shock to a multitude of friends, who will need no extended obituary notice to recall to them the many beautiful phases of character she possessed. The funeral will take place from her late home on Saturday morning at 10 o'clock.

# FINANCIAL AND COMMERCIAL

By Telegraph to The Freeman.

New York, Aug. 22.—Liberty 3½'s continued their upward movement from the opening of the stock market today, the high record being listed at 102.50. The stock market showed irregular changes at the start, but many issues were soon under pronounced pressure. Steel Common sold down from 111¾ to 110¾ and Mexican Petroleum dropped from 100⅞ to 99¾. Baldwin Locomotive dropped ⅞ to 93¾. New Haven sold off ½ to 42½ while Union Pacific made an opening gain of ⅜ to 125⅜. American Sumatra, after advancing ¾ to 128¼, lost its gain in the next few minutes.

The market during the forenoon was entirely professional with some of the large traders turning from the bull to the bear side. There was a slight rally late in the forenoon. Steel Common, after selling down to 110¾, rose to 111⅛ and most of the other steel industrials acted in the same manner. American Hide and Leather was about the only active issue, the Preferred moving up 2 points to a new high record of 91 while the Common rose ⅝ to 28⅛. Trading in the Liberty bonds continued active, the 3½'s selling up to 102.50.

The market was extremely quiet during the afternoon, dealings in the important issues practically at a stand still. The fractional changes were generally to lower levels.

The market closed steady, government bonds unchanged; railway and other bonds steady.

# MEALS AT NOMINAL PRICE

**Emergency Kitchens in Dutch Capital Have Been Found to Be of Great Value.**

Emergency kitchens were not known in Holland before the war, but are now established in all the larger cities for the purpose of supplying the poor, as well as persons and families of small means, with one warm and wholesome meal a day at a nominal price. In The Hague are three such kitchens, which are well patronized and have accomplished a great amount of good.

One was established by the municipal government and is mainly intended for the use of the really poor of the city. It furnishes to all callers one meal daily for the price of four cents.

The menu for one week follows: Monday, oatmeal, milk, butter, and sugar; Tuesday, potatoes, carrots, onions, and beef; Wednesday, potatoes, red cabbage, and beef; Thursday, pea soup, with pork; Friday, potatoes, sauer-kraut, and edible fats; Saturday, potatoes, beets, and edible fats. No meals are served on Sundays.

Another kitchen was established by "The Dutch Society of Housewives," and is intended for the use of small-salaried persons. Dinners are served in the restaurant for 12 cents, and for 10 cents if sent for. The dinners consist of meat or soup, vegetables, and potatoes.

The third kitchen was also started by private initiative and is patronized by the better salaried persons, such as teachers, clerks, officers of the army, etc., who here get a good square meal, for 80 cents.

# FOUND MAN TO COOK CORN

**Lucky Find Solved Big Problem for One of Hoover's Helpers in Hard Times in Belgium.**

A cargo of corn sent to the commission for the relief of Belgium early in 1916 was a problem to dispose of until Robinson Smith, one of Hoover's helpers, ran into luck on a dusty Belgian road one day.

None of the Belgians had ever used American corn. The cargo was useless unless some one could be found who knew how to cook it. Smith was thinking over the problem as he drove along in his car, he related the other day. He espied a ragged-looking negro sitting by the roadside. He drew up his car.

"Are you an American citizen?" he asked the bundle of rags.

"I doan know, boss," the bundle answered. "I comes from Nohfolk. All I knows is I ain't got no business heah, sah."

"But you can cook, can't you?" Smith asked with rising hope.

"Bes' thing I do, sah."

Without a pass for him, Smith was perplexed as to how he could get the find back to Brussels. He took a chance and put the negro in the rear of the machine under a blanket and drove him off to the C. R. B. kitchens.

They put him in a chef's uniform and brought in the corn. The way the Belgians ate corn pone, corn bread and corn cakes made that cargo go so quickly the C. R. B. soon had no problem on its hands.

### "As Good as Yours."

Recently there arrived at one of our Atlantic ports an American who recently managed to get out of Russia. He tells an amusing story illustrative of the chaos and the lack of respect for government which recently have come into existence in Russia.

The Kerensky government, it seems, at one time put out an issue of forty-ruble notes. They were about the size of a large postage stamp, and quite artistic in design. Almost immediately they were copied by a band of counterfeiters, who in an ecstasy of frank contempt for the government, printed across the face of their notes:

"Ours are just as good as yours."

As an example of Slavic humor, it must be admitted that this has its merits. And as things are turning out, the words of the counterfeiters were apparently as true as they were amusing.

### First Museum.

The first museum was part of the Palace of Alexandria, where learned men were maintained at the public cost, just as eminent public servants were in the Prytaneum at Athens. Its foundation is attributed to Ptolemy Philadelphus about 280 B. C.

### Y. M. C. A. Undenominational.

The Y. M. C. A. is undenominational as an institution. Its aim is to promote the social, mental, physical and spiritual well-being of all young men without regard to their church affiliations or religious beliefs.

# MADRID CALM OVER GERMAN SITUATION

By Associated Press to International News Service.

Madrid, Aug. 22.—The Spanish capital is entirely calm. There is no excitement over the situation that has arisen between Spain and Germany over the torpedoing of the Spanish ships. The entire press supports the policy of the government by seizing an interned German ship for every Spanish ship torpedoed, but otherwise to maintain neutrality.

There will be a cabinet meeting this week at which Berlin's answer to Spain's note will be considered.

Don't Forget to Register.

"All male persons who have reached their twenty-first birthday since June 5, 1918, on or before August 24, must register on August 24th.

"These men should consult with their local boards as to how and where they should register."

# PAGEANT REPEATED AT MC VEY'S FIELD

On Friday Evening, August 30—Will Not Be Given as Big a Scale as at Forsyth Park—Reasons Why.

The board of public works Wednesday afternoon directed A. W. Buley, director of public recreation in Kingston to hold the pageant "Over Here" to be given Thursday afternoon August 29 at Forsyth Park at McVey's Field on Friday evening August 30 at 7 o'clock.

The pageant will be held on a smaller scale at McVey's Field than at Forsyth Park due to the natural conditions. The Delaware avenue playground center has not the natural stage setting afforded at Forsyth Park, and is not as good a place to hold a pageant according to Director Buley. He stated this morning however that they will be able to give a fair exhibition of the pageant.

A stage will be erected at McVey's Field and dressing rooms for the children who take part will be provided. By giving the pageant downtown it will afford many who otherwise could not attend Forsyth Park Thursday afternoon a chance of seeing it.

The general public is invited to attend the pageant and should bear the dates in mind. Thursday afternoon August 29 it will be given at Forsyth Park and Friday evening, August 30 at 7 o'clock at McVey's Field.

First Class Private Frank A. Scheffel of 192 Downs street this city is now doing his bit as motor truck driver "Somewhere in France." Letters received by his wife formerly Miss Pearl Kilmer state that he is feeling fine and has seen many wonderful sights over there. Private Scheffel left Camp Merritt for the other side March 13, 1918. He is a cousin of George F. Schirick of 178 Downs street who was killed in action July 23. The picture shows Mr. and Mrs. Scheffel.

# UNDERNEATH THE CITY HALL DOME

Just because a man is a handsome cuss does not always signify that he will set the world on fire, and with the goods get by for my friend it oftens happens that the man with face like a sigh is the man who lands the honor of being the real Big Gu. Mused the City Hall this morning.

Justice is sometimes sharp mused a spectator in the city court room this morning. His musing. His musing was due to the fact that the benches of the court room are full of nails which project and he ripped a five dollar pair of trousers on one of the nails.

The other day William J. Rahder of Chapel street sent some flour to the board of health office to have it tested. He wrote a note stating that he did not think it was pure wheat from the grain he had taken to a mill to have ground and wanted the board to test the flour and see if his deductions were correct. The board notified him that it had no facilities for testing flour and that the food administrator might be able to help him out.

At the Higginsville fire Wednesday evening the police found a bunch of keys in the street. The owner may have them by calling at police headquarters.

Primary Day September 3. The primaries will be held in the original thirteen polling places in Kingston. The seven additional polling places will not be used until election day in November.

# AIRCRAFT PROGRAM IS NEAR-FAILURE

By Telegraph to The Freeman.

Washington, Aug. 22.—Asserting that those in charge of producing aircraft for the American fighting forces abroad have practically wasted $648,000,000, the aircraft investigating committee reported to the senate military affairs committee today that the aircraft program up to the present time has presented "many aspects of failure, but that this brief summary is not a wholesale condemnation of our aircraft program. Much has been accomplished.

The committee is glad to report that while it believes there are yet many things to be remedied, nevertheless we are approaching a period when quantity production may be hoped for." The committee formally suggested the establishment of a department of aeronautics with a cabinet member at it head to produce aircraft for both the army and the navy.

Candles from Human Fat.

Among soap anomalies may be mentioned human-fat toilet soap known over continental Europe the past century or more and indicated by some medicos as a superior emollient. This sounds callous, but the art of soap making is not particularly noted for fine sentiment. The fat stock was obtained from cadavers of hospital and morgue derelicts and tried out like any other fat. Candles for special purposes have also been made from human fat.—Scientific American.

French "Immortals."

The French "Immortals" are the members of the French Academy, which is part of the Institute of France. The institute was founded by Cardinal Richelieu in 1635 and reorganized in 1816. The membership of the academy is limited to forty, and new members are elected by the old membership.

THEY WERE LUCKY.

Messrs. Williams and Betts Home With True Fish Story.

William Williams the Broadway florist, and George Betts of the Delaware avenue garage, has just returned from a two weeks' fishing trip at Copake Lake, Columbia county. They caught sixty bass, weighing from two to four pounds each while away, and also landed two wall-eyed pike. One weighing six pounds and the other 6½ pounds. An old resident of thirty-five years standing in that vicinity informed them that it had been at least six years since a wall-eyed pike had been caught in the lake.
